## **Report from the Board of Directors**

Thai economy continued its moderate pace of recovery momentum in 2016 through the government's fiscal stimulus measures, incremental growth in tourism activities, and nascent recovery in private consumption. Farm income slightly improved with the passing of the droughts in most parts of Thailand, yet the overall consumption condition is still weighed down by continuing high level of household debts. Meanwhile, private investment growth remained weak, given excess capacity and slow growth in prospective demand. The export sector showed some sign of recovery with increasing oil and commodities prices. With slow going domestic environment, global economy encountered the stage of volatility and uncertainty where the environment is surrounded by various challenges, namely the U.S. Federal Reserve's raising of interest rates, sluggish growth in Euro zone and the Brexit, political uncertainty from US presidential election result, and the slowdown of China. The GDP growth for the year is subsequently at 3.2%.

In 2016, loan growth in the banking system declined from 4.3% in 2015 to 2.0%, following the stricter credit policy and declining loan demand. The NPL level in banking industry surged mainly from stagnant SME sector amid fragile economy. Corporate loans experienced slowdown as capital expenditure spending by private sectors has been more cautious with no new catalyst. Meanwhile, demand for consumer loan business continued to grow but constrained by already high level of household debt. Domestic car sales further declined by 3.9% from the previous year due to slow consumption and lack of growth driver. For the development in financial sector, the government's policy moved forward with new innovative industry - Thailand 4.0 and digital economy – introducing the national e-payment system through Prompt-Pay service jointly provided by all commercial banks. Furthermore, the emergence of a new generation of financial technology – "FinTech" – spurred the development of a complete ecosystem of supporting structures including financial banking system.

On contrary, it was a quite riveting year for Thai capital market where it outperformed other neighboring countries in term of highest growth. The SET index closed the year at 1,542.94 points, exhibiting a gain of 19.8% from 1,288.02 points at the end of 2015. Amidst global market volatilities, Thai market was viewed as the best performer in Southeast Asia and second-best in all of Asia Pacific.

In 2016, TISCO delivered an outstanding operating result despite the slow going operating environment. The net profit for the year 2016 was reported at 5,006 million baht, improved by 17.8% comparing to the previous year. Primarily, the growth was contributed by the ability to manage business margin despite highly competitive market environment. The core business was supported by higher volume in business activities and dynamic capital markets, resulting in the perpetual improvement in bancassuarance business, stronger fee income in business related to capital market and sizable investment banking deals. In addition, credit cost was managed down significantly, together with the substantial decline in NPL which lowered to just 2.5%, thanks to TISCO's tightened credit control policy and prudent risk management. With the well managed business operation, TISCO consistently maintained the top-tier position exhibiting the return on shareholders' equity of 17%, highest among peers. As an affirmation of business excellence, TISCO received "Outstanding Company Performance Award" from SET Awards 2016 for delivering best business performance among companies within the same range of market capitalization. In addition, TISCO's CEO, Mrs.Oranuch Apisaksirikul, also received "Outstanding CEO Award" from SET Awards 2016 for her dedication and hard-work, as well as her ability that drove the company's success in the past years.

Despite continued subdue loan growth, with a loan contraction of 5.6% year-on-year mainly resulted from continued weakness in auto sales, TISCO still effectively pursued selective growth strategies to capitalize on the opportunities. In particular, consumer loan business, marketed under brand "Somwang", continued to show a significant growth of 14% thanks to the strategic expansion plan of distribution network that reached almost 140 branches nationwide by the end of 2016. Corporate banking business also gained a growth momentum from the government stimulus programs, with improving asset quality from successful restructuring of one major problem account. Furthermore, TISCO has also signed the contract to acquire the retail banking business from Standard Chartered Bank (Thai) Public Company Limited, of which includes credit card business, personal lending business, mortgage business opportunity to the company's long-term growth. The benefits of this inorganic growth are expected to correspond with the corporate growth strategy to expand the customer base, increase the product offerings and boost the chance of up-selling and cross-selling in the area of expertise of TISCO.

TISCO emphasized on being the best financial advisor offering total solutions corresponding to clients' demand. TISCO Bank was one of the mandated lead arrangers and lenders for Berli Jucker Public Company Limited (BJC), which was renowned as "Best acquisition financing, Thailand" in The Asset Triple A Country Awards 2016 from The Asset Magazine, Asia's leading financial publication for issuers and investors. Moreover, during the year, TISCO Bank has underwritten IPOs of 4 companies in SET and 2 companies in MAI, and was the financial advisor and co-lead underwriter for the IPO of BCPG Public Company Limited which was awarded for "Best IPO deal, Thailand" in The Asset Triple A Country Awards 2016 as well. TISCO Securities, with aim to provide the best service and facility for investors, has expanded the equity stock coverage to 126 corporates, while its website has been updated and offered various new features to facilitate the users in the digital era. Hence, TISCO Securities received "Outstanding Securities Company Awards - Retail Investors" for the fourth consecutive year in SET Awards 2016. TISCO Asset Management successfully maintained the notable reputation of managing "TISCO Mid/Small Cap Equity Fund" with the best 3-year returns in the mutual fund industry. Even though fewer triggered funds were launched during the year, the success rate of delivering targeted returns strongly improved to around 86%.

TISCO has put further importance to Sustainability Development practices with purpose not only to strengthen business core value but also create the solid fundamental for long-term sustainable growth. As an assurance of an organization that does business following ESG practice, TISCO received "Certificate of ESG100 Company" for two consecutive years from Thaipat Institute as one of the top 100 listed companies demonstrating the outstanding performance in term of environmental, social and governance. This year, TISCO kicked start the formation of Sustainable Strategy as a guideline for operational process in concerns with governance, economic, environmental and social aspects. TISCO Sustainability Report was produced for the first time in accordance with the ESG practice as the report of commitment to assess the sustainability performance and disclose the results to the stakeholders. Following the promising initiative, TISCO Sustainability Report was awarded with "Certificate of Recognition for SDG-Enhanced Sustainability Report 2016" by Thaipat Institute. Good governance was long embodied in TISCO culture through the implication of CG standard and corporate governance policy, supervised by Corporate Governance Committee. Integrity and business ethics have always been promoted within TISCO staff to create transparent business practices and trustworthiness of the company. Hence, TISCO was re-certified with the membership of "Thailand's Private Sector Collective Action against Corruption (CAC)" to tackle the corruption problem in private companies. Moreover, TISCO was awarded for another year with "Excellent Corporate Governance Report of Thai Listed Companies" recognition from The Institute of Directors Association (IOD).

All the success could not be achieved without the cooperation of TISCO's competent and talented staff. It has always been TISCO's primary objective to motivate our personnel to their full potential. Development programs were implemented across the board, stimulating staff to reach the best performance in their area of expertise while enable cross-functional knowledge and skills improvement. E-Learning facilities, managed by TISCO Learning Center, continued to ensure accessibility and timely distribution of learning materials to all staff nationwide. During the year, compulsory test program was introduced and required all staff to participate and complete the tests on organization knowledge including TISCO products, rules and regulations, and corporate values. In addition to maintain the happy organization environment, TISCO stood as the company that encouraged learning growth and personal development.

TISCO continued consistently on the community development participation programs. The contribution for Educational Development in the society was further emphasized, ranging from the annual student scholarships by TISCO Foundation for Charity to new school building projects. Furthermore, the ongoing Financial Literacy program was regularly promoted aligning with the principle of sufficiency economy philosophy by His Majesty King Bhumibol Adulyadej. TISCO Financial Camp for high school students was held under the theme "Saving before Spending, Creating Financial Discipline", aiming to build awareness and promote financial consciousness to the young generation. Also, the similar program of "Smart Saving, Smart Spending" by Somwang team was held nationwide in order to educate local communities to focus on household financial planning, shark loan awareness, and smart saving and spending. TISCO cooperated with other institutions such as the Thai Banker Association and CSR club to carry on financial literacy activities for the society.

In the year 2017, Thai economy may gain further recovery momentum led by the resumed growth in export sector, the accelerated government disbursement for infrastructure projects and the flow-on tourism activities. Auto market is expected to pick up in the second half of the year following the end of the five-year lock-up period from first-car buyer tax incentive scheme and the new replacement cycle. Looking abroad, the global economic outlook seems to be mixed with various challenges. The U.S. economy should continue its promising recovery after new president announced a shift of focus toward internal affairs, while Eurozone and China still face a lot of uncertainty from growth measures. In banking industry, the emerging of FinTech will drive the commercial banks to fully adapt digital platform. With cautious business direction and strong capital base, it is confident that TISCO holds a solid foundation and is well-prepared for any new challenges yet to come.

The board would like to extend our sincere appreciation to all clients, business partners, and shareholders for their long-term support through all the challenges. We believe that with the complete dedication, full commitment and cooperation of management team and staff, TISCO can thrive through any difficulties and create valuable growth for the years forward.

In the time of immense grief, we, on behalf of all TISCO staff, are deeply saddened for the passing of our most beloved king "His Majesty the late King Bhumibol Adulyadej". We are most grateful for boundless and gracious kindness of His Majesty. His longest reigning and unflagging devotion to the development of the lives of Thai people will forever be remembered with great respect and admiration.

## **Business Operation**

## **1.** Overview of TISCO Business

#### 1.1 Important Changes and Developments during the past 5 years

In 2008, TISCO Group implemented the Holding Company Restructuring Plan with the holding company as the parent company of the Group. After the enactment of Financial Institutions Business Act, B.E. 2551 on August 3, 2008, TISCO Bank Public Company Limited ("the Bank" or "TISCO Bank") submitted application to establish the Financial Group to the Bank of Thailand by setting up a new company, TISCO Financial Group Public Company Limited, a non-bank public company limited to be a holding company and parent company of the Group in place of TISCO Bank. TISCO Financial Group Public Company Limited ("the Company") made a tender offer of all securities of TISCO Bank in exchange for newly issued securities of its securities at swap ratio of 1:1. As the result, the Company acquired 99.51% of TISCO Bank's total issued securities. After successful tender offer, the Company acquired all stakeholding in TISCO Bank and subsidiaries<sup>1</sup> identical to shareholding structure of TISCO Bank before restructuring and acquired all shares of Tokyo Leasing (Thailand) Company Limited. Moreover, TISCO Financial Group Public Company Limited has already operated since January 1, 2009 and listed on the Stock Exchange of Thailand in place of TISCO Bank which was simultaneously delisted from the Stock Exchange of Thailand on January 15, 2009.

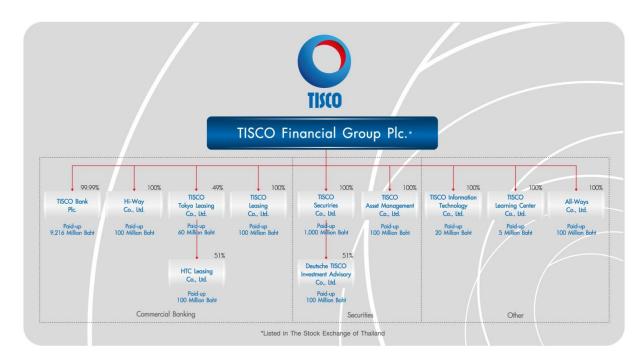

In 2011, TISCO Learning Center Co., Ltd became one of the companies under TISCO financial group with an aim to provide to develop, facilitate training and HR development roadmap for all subsidiaries under TISCO Group. In late 2012, Deutsche TISCO Investment Advisory Co., Ltd, in which TISCO Securities Co., Ltd held 51.0% of total stake, became a subsidiary under TISCO financial Group with aiming to provide equity research and strategic investment advisory service for domestic and foreign institutional investors. In 2013, TISCO Financial Group and TISCO Bank conducted the capital increase in purpose to support ongoing business expansion according to capital management plan of TISCO Group. The Company issued and allocated Transferable Subscription Rights ("TSRs") to the existing shareholders. After the completion of exercise period, total TSRs were fully exercised resulting in total registered capital of the Company increased to 8,007 million baht. Meanwhile, TISCO Bank also issued and offered the right offering to existing shareholders. Consequently, the capital increased shares has fully allocated resulting in total registered capital of the Bank increased to 8,192 million baht. At present, the Company held 99.99% of TISCO Bank's total issued securities. With an aim to strengthen public awareness of TISCO as well as support ongoing business expansion, TISCO Group has been enhanced the corporate image to be modernistic by adding a new symbol "the Opportunity" over TISCO logo in which it reflects the commitment to create opportunities that bring sustainable values to our customers and all stakeholders under the positioning "Wealth of Possibilities". In 2014, TISCO Bank Plc increased capital as approved by shareholder's ordinary general meeting for the year 2014. The objective of capital increase is used to support future growth and ensure sufficient capital cushion in the increasingly volatile environment. The Bank issued and offered newly issued common share to the existing shareholders (Right Offering) accounted for new capital of 1,023.96 million baht. As a result, the paid up capital of the Bank increased to 9,215,676,920 baht. In 2015, TISCO Tokyo Leasing Co., Ltd acquired 51% stake in HTC Leasing Co., Ltd, in which it provides captive hire purchase loan for Hitachi construction machinery, and further became an affiliate under TISCO Financial Group. In 2016, TISCO Bank Public Company Limited and All-Ways Company Limited, the subsidiaries under TISCO Goup, have signed an agreement to transfer retail banking business from Standard Chartered Bank (Thai) Public Company Limited whereby the business acquisition is expected to be completed within the year 2017. In addition, the business acquisition will be strengthened retail banking business following larger customer base and product coverage together with synergy benefit from the business acquisition.

<sup>&</sup>lt;sup>1</sup> Except the company which ceased and the company in liquidation process.

#### Strategic Plan and Strategy Map

External business environments such as the economy, domestic and international politics play an important part in developing our 3-year business plan. Not only are external factors incorporated into strategic plan revision, but internal factors are also included, such as strengths, weaknesses, opportunities, threats, critical success factors and priority issues. The management will take all of these issues into consideration to determine a Corporate Theme. The Corporate Strategy Map, in accordance with the Corporate Theme, will then be crafted along with Vision.

To implement strategic planning successfully, TISCO Group has adopted Balanced Scorecard technique with the aim of achieving balance in strategic planning from four perspectives: financial, customer, internal process and learning. Key Performance Indicators will be determined for all business areas, and linked to performance management to gauge employee performance so that staff may be awarded fair compensation based on merit. Additionally, the business performance is constantly monitored via Performance Dashboard session.

#### Strategic action for the organization

To achieve the organization's goals, within the Vision framework, TISCO Group has determined strategic actions as follows

- Increase geographical coverage towards microfinance branch network as well as offering secured loan products.
- Expand individual deposits base and wealth management business in growing upper middle income and retirement segment amidst aging society trend.
- Retain and develop more business with existing clients through total solution approach
- Continue to explore and leverage on business partners for client acquisition and market access.
- Extensive collaboration to increase customer utilization and business referrals across group's business to market products and services in response to client's lifestyle and various customer needs.

### 2.1 Area of Services

As the Company operates as a shareholder of other companies (Holding Company) with no other major business, the area of services can be categorized by business operations of its subsidiary companies which can be divided into 2 main businesses including commercial banking business and securities business. In accordance with client centric approach, the service operations of TISCO Group are divided into 4 business pillars namely 1) Retail Banking 2) Corporate Banking 3) Wealth & Asset Management 4) Corporate Affairs & CSR. Details for each service operation are as follows.

#### 1. Retail Banking

Retail Banking group provides 2 service types as follows.

#### 1.1 Retail Loans

Retail loans are conducted by offering loan services to retail customers, which mainly have specific loan purposes for individual consumption. This segment can be classified by loan purpose as follows.

#### • Hire-Purchase Financing

Hire-purchase financing is operated by TISCO Bank Plc, Hi-Way Co., Ltd, TISCO Tokyo Leasing Co., Ltd and HTC Leasing Co., Ltd allow borrowers to buy assets under hire-purchase terms. The buyer makes a down payment at the predetermined proportion of asset value and pays equal installment amounts over the contract period. The ownership of assets is then transferred to the buyer after all installments are paid. Contract periods are ranged from 1 to 7 years. A fixed interest rate is charged in line with the market rate on the contract date.

TISCO Group provides hire-purchase loans for all types and models of new and used automobiles. This includes passenger cars, multipurpose vehicles, motorcycles, and commercial vehicles such as sedans, trucks, and trailers. In addition, hire-purchase financing also offers on loans for buying machinery and equipment for commercial purposes such as printing machines and medical equipment.

As of December 31, 2016, hire-purchase loans were 137,285.30 million baht, decreased by 10.2% from 152,907.78 million baht in 2015 mainly following the subdued private consumption and shrinking domestic car sales.

Hire Purchase	December 31, 2014 (Million baht)	December 31, 2015 (Million baht)	December 31, 2016 (Million baht)	Growth rate (%)
Car	162,329.59	150,174.57	134,714.46	(10.3)
Motorcycle	2,765.41	2,733.21	2,570.84	(5.9)
Total*	165,095.00	152,907.78	137,285.30	(10.2)

\* Excluding loan of TISCO Tokyo Leasing Co., Ltd.

In 2016, TISCO Group (specified for TISCO Bank and credit granting companies) granted hire purchase loan for new car, ranked by car brands contribution, with 31.5% from Ford, 22.3% from Mazda, 13.7% from Isuzu, 11.2% from Toyota, 8.3% from Chevrolet and 13.0% of other brands. The proportion of hire purchase loan between new car and used car were 87% and 13%. In addition, the TISCO Group's strategy is to continue on expanding hire-purchase financing, given the ongoing market demand with the enhancement of service quality while continues to offer variety of services, as well as effective control of asset quality rather than engaging in price competition. In addition, the interest rates charged are competitive and the maximum payment period is in compliance with the Bank of Thailand rules.

#### Consumer Loans

Consumer loans are mainly operated by TISCO Bank, providing consumer loans according to market needs with a strong focus on acceptable risk-adjusted return on capital (RAROC). The consumer loans segment has two main categories as follows,

**Mortgage Loans** are granted to acquire residential property, including multipurpose loans, which use property as collateral to support the client's liquidity. The repayment terms vary from 3 to 30 years with full collateral, with interest rates either floating or fixed in the first three years and floated rate for the remaining years. In addition, TISCO Bank has cooperated with Secondary Mortgage Corporation in providing mortgage financing with fixed interest rate.

As of December 31, 2016, mortgage loans were 978.81 million baht, decreased by 20.1% from 1,224.55 million baht in 2015 due to tightened screening credit policy.

**Consumption Loans** are operated by TISCO Bank Plc, and Hi-Way Co., Ltd; providing multipurpose loans for individuals and business owners in need of cash flow for various purposes. The Bank's loan against vehicle registration has continually enhanced in responses to diverse needs of various customer segments covering motorcycle, car sedan, and truck with repayment periods up to 60 months under slogan "TISCO Auto Cash – Quick cash delivery, No transfer of vehicle registration". Furthermore, the Bank expands scope of loan against vehicle registration to cover various type of vehicle i.e. large displacement motorcycle, food truck and etc. together with revision of credit policy to match with collateral value as well as customer risk profile.

To enhance enhance customers' convenience in accessing microfinance service, TISCO expanded branch network of loans against car and motorcycle registration nationwide under "Somwang" branch in which there were 135 of Somwang branches nationwide in 2016 and will further expand network to 200 branches within 2017. With an aim to enhance service convenience for new generation of customer, the customer can contact TISCO via website "www.tiscoautocash.co.th" and "www.somwang.co.th" to apply for online application service.

As of December 31, 2016, consumption loans were 23,228.20 million baht, increased by 13.9% from 20,399.23 million baht at of 2015.

	December 31	, 2014	December 31, 2015		December 31,

#### 2. Corporate Banking

Corporate Banking group provides 3 service types as follows

### 2.1 Corporate Lending

Corporate Lending service is operated by TISCO Bank. Commercial finance facilities are provided to large corporate clients for commercial purposes, including loans and related services such as guarantees, aval, loan arrangement services and loan restructuring. Commercial lending is classified by the following service types:

### • Working Capital Loans

Working capital loans fill the need for business liquidity and cash flow, especially for industry and seasonal businesses, by facilitating loans for buying raw materials and inventory, and loans for account payable repayments. They are revolving loans, with repayment terms set for within one year. The terms and conditions of such loans are subject to credit review annually.

#### • Project and Term Loans

Project and term loans fill the need created by medium or long-term business development projects which have a specific purpose. The funding project, as the ultimate source of funds for loan repayment, must be traceable in terms of project

progress. This segment mainly consists of term loans which have a repayment schedule in line with the timeline, progress and cash flow of the project. The Bank's policy is to support industry and manufacturing in all business areas, especially ones that support national development. Project and term loans are generally offered for building factories, offices or business expansion, property developments, infrastructure construction, project bids such as power plant or buying industrial machinery.

#### • Other Commercial Loans

Other than the two above-mentioned types, the Bank also provides credit for other commercial purposes such as loans against deposits or liquid assets with short or medium terms using liquidity assets as collateral. This segment includes loans for investment, which are medium or long-term funds which investors use to buy assets, such as property, which they then use as collateral, with the terms and conditions of the loan set according to asset earning ability.

#### • Guarantee and Aval Services

The Bank provides guarantees and aval services for our client's business partners by issuing project bidding bonds, performance bonds and purchase guarantee letters to manufacturers. Terms of letters of guarantee are flexible and made to suit the beneficiary's needs.

### • Loan Consultancy and Related Services

The Bank provides full-service loan consultation services in such areas as financial structuring and debt restructuring, and is also a syndicated loan arranger, facility agent and security agent.

### Custodian Service

The Bank provides custodian service for safekeeping the clients' assets and securities, payment and delivery, and performs the fiduciary duty of acting as custodian for provident fund, private fund, juristic person and individual, including confirmation of net asset value for provident fund.

#### • Competition

In 2016, commercial banking industry performance was improved compared with the previous year amidst sluggish economic recovery and volatile economic environment. The weak consumer confidence together with high level of household debt caused has pressured on asset quality of loan portfolio, particularly retail and SMEs credits. Nevertheless, the provision buffer and capital fund remained solid which had cushion against the weak asset quality. Meanwhile, the Bank of Thailand maintained the policy rate at the 1.50% in 2016 to stimulate consumption and support the domestic economic recovery. The competition in deposit

market was slowdown alongside with the decelerated loan growth. The commercial banks launched deposit campaigns to maintain customer base as well as term deposits to maintain cost of fund. Some commercial banks have developed mobile banking service to facilitate banking transaction while some of them reduced bank branches to improve operational efficiency. In addition, TISCO Bank continued to focus on expanding retail deposit customer base by offering savings products that earn appropriate yield as well as improving services to enhance customer convenience.

For corporate and SMEs banking businesses, the competition remained intense to maintain the existing customer base as well as expanded new customer. Most of the players adopted pricing strategy and integrated financial solution to serve the customer. Nevertheless, the commercial banks tightened credit policy for SMEs segment to curb the weakened asset quality. Meanwhile, some of corporate customers tend to raise fund from the issuance from equity and debt instrument. TISCO Bank has focused on controlling asset quality as well as preparing to cope with economic uncertainty. Thus, the Bank aims to compete on service quality rather than pricing. The Bank also expands customer base by deploying long experience in the business, excellence operation, and quality service to response with diverse needs of the customer.

For auto hire purchase business, the competitors in auto hire purchase business can be divided into two major groups: 1) commercial bank and leasing company, a subsidiary of commercial bank and 2) subsidiary companies of car manufacturers and car dealers (captive finance companies). For the year 2016, the competition in auto hire purchase market remained intense despite the total car sales was declined by 3.9% (YoY) following high household debt level with lingering effect from the government's tax incentive for first-time car buyers. Meanwhile, the used car sales improved from the previous year partly due to the higher price of new car and more reasonable price of used car. Nevertheless, TISCO Group has retained the competitive advantage in new car business from being the key strategic partner with car manufacturers and car dealers of Ford, Mazda, and Volvo. Amidst economic volatility, TISCO Group continues to expand customer base through efficient and high standard of service, long experience in hire purchase business, good relationship with car dealers, effective cost and risk management together with extensive customer database.

As of December 31, 2016, the Bank was ranked at 10<sup>th</sup> place among Thai commercial banks based on asset size. The market share of assets, deposits and loans were 1.6%, 1.4% and 2.0% respectively.

### 2.2.2 Securities Business

#### • Competition

Although there are a lot of players in securities brokerage market, the new players still interest to enter the market amidst the brokerage business liberalization. Thus, the brokerage market competition remained intense to maintain and expand market share. Most of market player has adopted price cutting strategy as well as pure online trading brokerage service to reduce operating cost. Furthermore, some of market players adopted revenue diversification strategy through new sources of income including cross-border business activity to expand investment banking business, exclusive partnership with international brokers in order to increase market share in foreign institution and extend to global market services, and new business expansion such as derivatives warrant business, derivatives business, selling agent business, etc. Also many securities companies extensively operated their own proprietary trading to increase trading income. Going forward, the competitive pressure will be significantly increased led by commission fee liberalization in which sliding scale commission fee will be applied to individual investor while freely negotiated commission fee will be applied to institutional client. TISCO Securities Co., Ltd has no policy in aggressive price cutting. However, TISCO Securities Co., Ltd. focuses to serve fundamental investors rather than speculative investors, by producing high quality research article, and developing other services as an alternative for the investor.

For the year 2016, TISCO Securities has enhanced several service capabilities. For instance, the new Stock Scan application which is a tool that helps customer to sort out prominent stock according to investment style and their risk appetite to be more modern and outstanding, Aspen application for helped customer to received instant news around the world, also the smart technical tools as well as launching Line: @TISCOeResearch which provide news and research by TISCO Research team. For the institutional client business, Deutsche TISCO Investment Advisory Co., Ltd has continually developed research and investment advisory services to serve local and foreign institutional investors. In 2016, TISCO Securities Co., Ltd accounted for a market share (excluding proprietary trading) of 2.4%, ranked 22<sup>nd</sup> place among 36 securities companies.

In the investment banking sector, the competition is intense as there are a lot of market players while market demand is limited. Most of the players emphasize in quality of team, experience and expertise in financial advisory as well as established long-term relationship with customer.

#### 2) Lending

#### • Credit granting policy

#### **Commercial loans**

TISCO Group (specified for TISCO Bank and credit granting companies) has a policy to emphasize prudent growth in commercial and retail lending. In each new credit approval, the Bank thoroughly considers the borrower's business potential, opportunities, ability to repay, collateral, and also the rate of return that justifies the risk of each borrower. TISCO Group focuses on expanding business into markets with acceptable risks/returns in which it has sufficient expertise. TISCO Group performs analysis and key risk characteristics prior to entering new markets.

The collateral policies vary, depending on the type of credit. Prudent collateral policies are employed with effective procedures to stabilize collateral values under the specified conditions and to minimize potential losses. However,

TISCO Group may selectively grant loans without collateral to certain borrowers considered to have high creditworthiness on a case-by-case basis. For the appraisal of collateral values, the Bank has a policy to have the collateral appraised by an independent appraiser or the internal asset appraisal unit before any loan can be drawn. TISCO Group's Appraisal Sub-Committee is responsible for approving the appraisal value proposed by the internal unit and independent appraisers under the company's guidelines in compliance with the regulations of the BoT.

TISCO Group has established prudence procedures for all credit approvals to ensure high credit quality while maintaining customer satisfaction. Approved credits are reviewed and controlled in compliance with overall credit policies.

The maximum credit terms are set according to the regulations of the BoT. TISCO Group has constructed a pricing policy aligned with current market conditions and credit exposure as well as the cost of funds without any price undercutting strategy.

#### **Retail loans**

The hire-purchase business covers a large portion of the retail credit portfolio. TISCO Group has a policy to aggressive expand its hire-purchase business in this market with justified risk-adjusted returns. TISCO Group has established a standard approval process for the hire-purchase portfolio and other retail loan portfolios by systematically implementing a credit-scoring system which has been developed from an internal database to effectively control and shorten the loan approval process.

Credit policies have been regularly reviewed to reflect the current market situation and support loan expansion in a prudent manner. Nevertheless, overall customers still have appropriate risk-adjusted return. Meanwhile, TISCO Group has a policy to maintain good credit quality compared to competitors without resorting to a price-cutting policy. In this respect, the focus on enhancing quality of service and good business relationships is a vital competitive tool. For the collateral policy, hire-purchase assets are supported by adequate secondary markets and appropriate insurance strategies.

For mortgage loans, the approved credits do not exceed 90% of the collateral value with terms and conditions varying with the types of collateral, while other retail loans without collateral require higher interest rates to offset the higher risk being assumed.

#### • Credit Approval Limits and Authorities

The Credit Committee is responsible for overseeing the credit approval process under the credit policies and guidelines set forth by the Executive Board.

In addition, credit approval policies have been clearly stated in terms of credit limits and delegation of authority. All corporate loan transactions must be reviewed and approved by the Credit Committee while loan facilities considered material and large in size must be approved by the Executive Board.

For the retail credit portfolio, which naturally covers small transaction sizes, the credit approval process and delegation of authority varies according to the level of credit limit as controlled by overall credit policies. Large retail credits must be approved by the Credit Committee or the Executive Board after reviewing the types and purposes of loans on a case-by-case basis.

For hire purchase business, TISCO has also implemented a credit-scoring system to assist the loan approval process in which customer characteristics, loan terms and conditions are taken into consideration for the computation of credit scores.

### • Credit Risk Management

The Risk Management Committee of the Bank, comprised of senior management from key business lines, has been delegated the authority to set up policies, guidelines and procedures for overall credit risk management. Meanwhile, the Credit Committee and Chief Credit Officer, who are in charge of the loan approval processes of each credit transaction, set up guidelines for the delegation of approval authority at different levels for different types of facilities. The Problem Loan Committee is set up to monitor and follow up on problem loans and set up appropriate provisions for potential loan losses. Moreover, Risk Management Committee will report risk management activities to the Risk Management Committee of TISCO Financial Group Public Company Limited, the parent company, on a regular basis in compliance with Consolidated Supervision principle of the Bank of Thailand.

To ensure independence in carrying out the credit approval process and reporting to the Risk Management Committee, credit quality control functions are clearly separated from marketing functions. Moreover, credit review functions assigned by the Internal Control function and the Audit Committee are responsible for reviewing ongoing credit approval processes and ensuring transparency in overall credit granting procedures. A credit grading system has been adopted in credit risk assessment for both corporate and retail credit portfolios in accordance with the implementation of the Internal Ratings Based approach (IRB) resulting in more efficiency in capital utilization in the long term.

In controlling risks from credit concentration, TISCO Group has set up a concentration limit which defines the maximum credit exposure for each individual borrower or borrowing group. Moreover, concentration in a single sector is also controlled within an acceptable level, and considered in combination with the sector exposure of equity investment. Furthermore, TISCO Group complies with the regulations of BoT concerning single lending limits.

### Credit Collection

TISCO Group regularly performs credit reviews of the loan portfolio and monitors problem accounts. The Credit Committee closely co-ordinates with credit departments, and follows up accounts with potential problems promptly after a missing repayment is reported. Also, Problem Loan Committee meetings are arranged to review the status of borrowers, set up debt collection schedules and follow-up procedures, pursue legal action, and set aside provisions for loan losses. In the follow-up procedures, the credit officer reports to the Problem Loan Committee on all restructure cases on a regular basis.

For the retail credit portfolio, TISCO Group strives to continuously improve the strategies and procedures for debt collection and follow-up, in line with economic conditions and related laws and regulations, particularly with regard to notification from the Office of Consumer Protection. The main collection and follow-up process includes collection, follow-up and asset repossession, legal process and enforcement.

## • Debt restructuring

The objective of debt restructuring is to resolve problem loans, which are affected by economic downturns or the borrower's financial difficulties. Under TISCO Group's procedures on debt restructuring, there are various methods such as relaxing of payment conditions, debt-to-assets conversion, debt-to-financial-instruments conversion, and debt-to-equity conversion.

Debt restructuring can be conducted with every type of borrower, either defaulted or non-defaulted. The corporate lending function is responsible for the debt restructuring process, including the decision to select borrowers for restructuring. The delegated officers will evaluate the borrower's credit qualities and related financial and operating environments, and perform projections on repayment possibilities.

For debt restructuring cases related to, both directly and indirectly, Bank directors, persons related to TISCO Group directors or the management, the borrower's status, repayment ability and cash flow status must be evaluated by an independent financial institution or third party with no conflict of interest with the bank and the borrower. Under the regulations of the Bank of Thailand, all restructured loans are reclassified, provisioned, and recalculated for impairment loss.

## (3) Capital Adequacy

The Group has a policy to maintain capital that is adequate to safeguard against company risks in the long run, taking into account long-term solvency within economic uncertainties and the adequacy of regulatory capital-to-risk asset ratios as required by law. Currently, the Bank of Thailand sets the capital adequacy ratio for banks registered in Thailand at 9.125%, where Tier-I Capital must be maintained at a level equal to at least 6.625% of risk assets.

The year-end Capital Adequacy Ratio for 2014 to 2016 has been maintained above the regulatory requirements with details as follows:

				(Unit: Percentage)
Capital Adequacy Ratio	December 31, 2014 <sup>/1</sup>	December 31, 2015 <sup>/1</sup>	December 31, 2016 <sup>/1</sup>	Regulatory Requirement
Tier-I Capital to Risk Assets	12.55	13.98	14.73	6.625
Total Capital to Risk Assets	16.79	18.01	19.59	9.125

<sup>/1</sup> Applied IRB approach

It can be clearly seen that the capital base of the Group remains strong with the Capital Adequacy Ratio exceeding the requirements of the BoT and fairly sufficient to support the forthcoming regulations concerning debt reclassification and provisions.

#### (4) Liquidity Management Policy

The Risk Management Committee is responsible for monitoring and determining assets-to-liabilities direction and funding structure in detail. The Committee also establishes various liquidity limits to serve as early warning triggers such as liquid assets, contractual maturity mismatches, funding concentration and daily deposit/withdrawal levels. Furthermore, a liquidity contingency plan has been established for outlining clear procedures and responsibilities in detail for liquidity management in times of crisis.

Meanwhile, the Treasury function is responsible for daily liquidity management and preparation for securing sources and the use of funds as required. The Treasury function is also responsible for managing the Bank's liquidity position to comply with internal guidelines and the regulatory requirements of the BoT.

#### (5) Asset Classification, Provisions and Write-offs

The Group defines asset classifications according to the notification of the Bank of Thailand regarding worthless or irrecoverable assets and doubtful assets that may be worthless or irrecoverable as follows:

- (1) Assets classified as Loss are claims where there is no possibility of repayment due to death, disappearance, bankruptcy or dissolved business, or losses from debt restructuring according to the rules and regulations of the Bank of Thailand.
- (2) Assets classified as Doubtful-to-Loss are assets or claims whose entire value is expected to be irrevocable, such as debt claimed on the principal and interest overdue more than 12 months from the payment date.
- (3) Assets classified as Doubtful are assets or claims that are unlikely to be repaid in full, such as debtors with payments overdue more than 6 months from the contractual payment date.
- (4) Assets classified as Sub-Standard are defined as assets or claims with difficulties of repayment or that do not generate a reasonable income, such as debtor-owing interest and/or principal payments for a cumulative period of over three months from the contractual due date.
- (5) Assets classified as Special Mentioned are assets or claims whose value is deteriorating, such as debtor-owing interest and/or principal payments for a cumulative period of over one month from the contractual due date.
- (6) Assets classified as Pass are assets or claims which are not classified as Loss, Doubtful to Loss, Doubtful, Sub-Standard, or Special Mentioned.

The Group has a conservative provisioning policy. As of December 31, 2016, the Bank's reserves were 7,500.53 million baht, or 172.61% of those required by the BoT. Our asset classification policies are in compliance with those set by the Bank of Thailand and the Securities and Exchange Commission as presented in Part 1 Section 4 : Operating Assets item: 4.2

Securities Business operated by TISCO Securities Co., Ltd is detailed as follows:

#### (1) Sources of fund

The sources of funds are mainly from equity, operational cash flow and loans from financial institutions for working capital purposes.

#### (2) Credit approval and authorization

TISCO Securities Co., Ltd. has a credit approval policy to screen qualified customers as well as to provide customers with a good understanding of securities trading. The credit line for a particular customer will be based on the customer's financial status and collateral. The Executive Board of Directors has granted credit approval authority to the Credit Committee. The Credit Committee approves high volume credit lines by itself and has granted lesser authority to management responsible for approving general credit lines complying with the Credit Committee's guidelines and policy.

#### (3) Margin trading accounts

All clients of securities brokerages are cash accounts.

#### (4) Investment Policy

For listed equity, TISCO Securities Co., Ltd. has a policy to invest in businesses with strong fundamentals by considering liquidity, risk and return on securities and the diversification of its portfolio. As for non-listed equity, the Company has no policy to enlarge this portfolio, but will exploit market opportunities for selling the existing securities at the

highest price. For debentures, TISCO Securities Co., Ltd. holds them only for liquidity reserve purposes. For unit trusts, the company holds them as a short-term and a long-term investment depending on their investment policy and fund performance. Moreover, the company has a policy to invest in derivative instruments to earn gains from trading and for risk management purpose upon investment climate in the stock market.

Investment policy complies with the guidelines and policies of the Risk Management Committee, which consists of key executives. This committee determines the investment policy, size of investment portfolio, maximum limits for daily securities trading, and the loss limit.

## (5) Capital Adequacy Ability

The Net Capital Rule (NCR) ratio of TISCO Securities Co., Ltd. as of December 31, 2016 is 85.73%, well above the 7.0% regulatory requirement of the SEC.

#### **Overview of Risk Management**

TISCO Group places great importance on effective risk management and controls. By establishing an overall risk management framework, including policy objectives for all risk-related transactions, TISCO Group is able to increase awareness, accountability and efficiency in enterprise-wide risk management as well as maintain best practice standards and high-quality corporate governance. In addition, TISCO Group aims to maximize sustainable risk-adjusted return for shareholders over the long run.

#### Risk Management Policy

Overall risk management policy, as a standardized operation for TISCO Group's risk management, encompasses the following structures:

#### 1. Consolidated and centralized risk management

Risk management infrastructure is centralized by consolidating risk exposure from all subsidiaries under the Company through careful risk assessment and the establishment of appropriate risk guidelines and procedures.

#### 2. Business line accountability, independent risk oversight

Each business line is accountable for managing its own risks in the best interests of TISCO Group while complying with risk management policies, guidelines, and procedures. Independent risk oversight and check-and-balance system have been established to ensure that risks are adequately monitored and controlled.

#### 3. <u>Comprehensive risk assessment</u>

Risk assessment is performed comprehensively in all key activities. Risk assessment methodologies may range from basic approaches such as expert judgments to more advanced approaches such as quantitative and statistical analysis, depending on the size and complexity of the risks involved. These assessments are in turn supplemented by fundamental risk analysis and stress testing of extreme risk events.

### 4. <u>Capital management based on standardized risk tools</u>

Capital represents the ultimate interests of the shareholders. All risk exposures are quantified into a standardized risk measure called Risk Capital based on Value-at-Risk (VaR) concept which can relate risks to the amount of capital required to protect against them according to predefined risk limits. The process of risk assessment under Risk Capital is considered as part of Internal Capital Adequacy Assessment Process (ICAAP) of TISCO. Risk capital enables management and business line managers to understand the level of risks being taken in a meaningful manner. Risks from different levels are integrated to produce an overall risk picture of the Group, which is used for capital adequacy planning and strategic capital allocation both at the corporate and business unit level.

### 5. Risk Tolerance Level and Capital Allocation

The total risk capital shall not be in excess of available capital fund of the Group where qualitative risk tolerance level shall be applied for non-capital based assessment. Risk Capital shall determine the economic capital adequacy of TISCO, which the available capital is also allocated to the business and operating units such that the capital adequacies to undertaken risk are ensured both at the corporate- and business-unit-level.

### 6. Adequate return for risk and risk-adjusted performance management

To promote shareholder value creation, risk components are incorporated into business performance measurements with the objective of maximizing risk-adjusted returns for shareholders. Product pricing takes into account varying risks to ensure overall profitability. Business expansion is advocated in the areas where marginal risk-adjusted returns are in excess of the marginal risks.

## 7. Portfolio management, diversification and hedging

Risk diversification is a key risk management principle in all business activities. Diversification is considered and adopted by management and business line managers both at the portfolio and transaction levels as an effective approach to reducing the aggregate level of risks in accordance with certain guidelines and limits.

### 8. <u>Strong Risk Awareness Culture</u>

Awareness and understanding of risks and risk management are important for the accountability of risk management. Business heads are expected to have a high degree of awareness and understanding of the risks in their accountable areas and how they contribute to the overall risk of the corporate as a whole.

## 9. Effective Risk Modeling and Validation

Risks shall be modeled as forward-looking measures that reflect potential likelihood and impact on the intrinsic value of TISCO assets, liabilities, or businesses. Mark-to-market practice shall be adopted in all portfolios as appropriate, where independent validation from risk management shall be adopted in the case of high complexity in valuation. Key risk models with sufficient information shall be validated through a systematic back-testing process or other prudent statistical tools.

### 10. Regulatory best practice

TISCO Group has adopted risk management policies and guidelines that comply with all regulations and best practice standards of the Bank of Thailand (BoT), the Securities and Exchange Commission (SEC) and other regulatory authorities.

## 11. New Business or Product

All new businesses or products shall be approved by the portfolio risk authority and relevant specific-area risk authority according to the procedure outlined in the risk management guideline. New business or product will be evaluated in terms of its risk-reward characteristics, the contributions to the overall corporate risk profile, and the consistency with corporate capital capacity.

## 12. Related Party Transaction

All business transactions among TISCO Group and related party shall be on a similar basis with same treatment of regular customers. Additionally, the related transaction shall be transparent and auditable. Meanwhile, the proportion of business transaction among TISCO Group shall be controlled under regulatory guideline.

## 13. Stress Testing

Stress Testing is a procedure to assess the impact on the company's financial status under extreme risk events. Stress Testing process is designed to be as a supplementary tool for the analysis of credit risk, market risk and funding risk. Risk Management Committee is responsible to oversee the framework for stress tests. The Committee will establish guidelines and key required assumptions to perform stress tests based on the appropriate framework. Meanwhile, Risk Management Function is responsible to facilitate all related business units in order to perform periodically stress tests, and report the stress testing results as well as the recommendations on any important aspects to the Risk Management Committee. Stress testing assessment and results shall be integrated to setting and evaluating the internal management strategy which may involve reviewing the need for limit changes or developing contingency plans.

### **Risk Management Framework**

In accordance with enterprise-wide risk management policies and objectives, risk management and internal control have been monitored and controlled by the Board of Directors of the Company with the delegation to the Executive Board of Directors of the Company. An effective management process has been established for assessing and managing all firm-wide risk exposures at both the portfolio and transactional levels to ensure the financial soundness and safety of TISCO Group. Senior management and relevant business advisory committees oversee the entire risk management framework and strategy for all business areas supported by planning and budgeting function. Risk Management Committee, supported by enterprise risk management, risk and business analytics, and operational risk management functions, are set up to oversee that enterprise-wide risk management of the group is undertaken according to the same standard. Specific-area risk authorities are then established to manage in-depth, transaction-level risks in each particular area, such as the Credit Committee, Problem Loan Committee, and Compliance & Operation Control Committee. These mechanisms are in turn supported by the Office of the Credit Committee and other supporting functions, governing compliance, and legal office. Business lines are fully accountable for managing their own risks within the policy guidelines established by the Risk Management Committee and specific-area risk authorities. All the business operations are under the risk limit approved by the Risk Management Committee including new business analysis in each business line. Additionally, risk limits triggered as well as new businesses shall be reported monthly to the Executive Board for acknowledgement. However, to enhance the overall risk management system, the risk management system shall be audited and reported to the Audit Committee which directly reports to the Board of Directors.

The roles and responsibilities of the relevant committees and risk management authorities are described as follows:

Board of Directors

The Board of Directors of the Company shall ensure the institution of effective risk management system of the Bank and ensure that the Company has adopted and adhere to TISCO Group Risk Management Policy. The Board has assigned Executive Board the task of overseeing and monitoring risk management activities. This is achieved by setting risk limits and risk appetites, and ensuring the establishment of effective risk management systems and procedures in accordance with the standard practices of risk identification, assessment, monitoring and control, all of which are in line with the Audit Committee standards.

#### Board of Directors of Subsidiaries

Under consolidated supervision framework, the Board shall ensure that each subsidiary adopt and adhere to TISCO Group Risk Management Policy approved by the Board of Directors of the parent company. The Board will appoint other committees according to the needs and suitability to carry out specific tasks to ensure that the operations are in compliance with established Corporate Governance Policy and report risk management activities and financial performance to the parent company's Executive Board on a regular basis, in compliance with the Consolidated Supervision Principle of the Bank of Thailand.

Risk Management Committee

The Risk Management Committee of the company, comprising the senior managements from the TISCO Group, has been delegated from the Executive Board of Directors of the company in charge of the formulation and implementation of enterprise-wide risk strategies and action plans in connection with risk management policies and guidelines. The Risk Management Committee meeting is regularly held once a month. Enterprise risk management, risk and business analytics, and operational risk management functions support the Risk Management Committee in setting up and monitoring risk management policies and guidelines and performing enterprise-wide risk management activities through research, assessment, and reporting process. Moreover, Risk Management Committee of TISCO Bank has also been established in effective management and control of risks in various business units of the bank by adopting the risk management policy from the parent company. Under consolidated supervision principle of the Bank of Thailand, Risk Management Committee of TISCO Bank directly reports to the Risk Management Committee of the company.

Specific-Area Risk Authorities

Specific-area risk authorities are set up to address in-depth risk management and controls at the transaction level. Key specific-area risk authorities include the Credit Committee and Problem Loan Committees, which are in turn supported by the Office of the Credit Committee in overseeing credit approval and risk management. In addition, Executive board of Directors of the bank and Board of Directors of other credit-granting subsidiaries shall control and follow up all specific risk areas which are directly reported to the Board of Directors of the bank as well as the Board of Directors of the company on a regular basis.

#### **Risk Types**

Risk management of TISCO Group considers five risk factors which are 1) Credit Risk 2) Liquidity Risk 3) Market Risk 4) Operational Risk and 5) Strategic Risk. Details are shown in item 3.1-3.5

The overall risk of TISCO Group is at a manageable level, with amount of capital fund remaining strong for further business expansion which has already been assessed by the Bank of Thailand. Moreover, TISCO Group has guidelines for risk management according to each type of risks.

Additional details are shown in Part 3 Section 14: Management Discussion and Analysis

### 3.1 Credit Risk

Credit Risk is defined as the possibility of obligor's failure to meet the contract agreement with TISCO Group. If the failure occurs, it requires the Bank to maintain higher provisions for loan losses. As a result, it adversely impacts net income and capital of TISCO Group.

### 3.1.1 Default Risk

Default risk occurs from higher credit quality. As of December 31, 2016, NPL ratio of TISCO Group decreased from 3.2% at the end of 2015 to 2.5% at the end of 2016 mainly resulting from a decrease in non-performing loan of retail and corporate portfolios. Moreover, in order to prevent rising credit risk, an increase in expected loss was also absorbed by the provision expense set up during the year, with prudently managed non-performing loans (NPLs) including advanced risk management tools and stringent practice of loan collection, debt restructuring and write-off process. Additionally, NPL ratio of retail loan decreased from 3.5% at the end of 2015 to 2.9% at the end of 2016, where NPL ratio of corporate loan decreased to 0.9% at the end of 2016, compared to 2.7% at the end of 2015, mainly resulting from reclassification of Sahaviriya Steel Industries Plc. (SSI) from non-performing loan to special mention loan. Total NPLs was 5,710.14 million baht which decreased by 25.9% or 1,990.69 million baht. NPLs of the Bank were 5,120.99 million baht and there was NPLs of 589.15 million baht from other subsidiaries.

TISCO Group has applied collective approach for loan loss provisioning to the car hire-purchase portfolio following the Basel III framework. The loan loss reserve was derived from the best estimate of expected credit losses from the portfolio over the next 12 months, based on historical loss data incorporating with adjustment for the recent market situation. In 2016, TISCO Group has utilized portion of general reserve to compensate the potential losses in the future. Meanwhile, as of December 31, 2016, loan loss reserve of TISCO Group was 7,983.64 million baht. Total loan loss reserve of the Bank was 7,500.53 million baht which was higher than the minimum loan loss reserve required by the Bank of Thailand at 4,426.91 million baht accounted 169.4% of minimum loan loss reserve requirement, reflecting the prudent provisioning policy to mitigate potential risk.

## 3.1.2 Concentration Risk

Concentration risk is the risk from borrower concentration. As of December 31, 2016, hire purchase and commercial loans represented 61.0% and 20.7% of the total credit portfolio, respectively. The hire purchase portfolio, of which concentration was very low, had 137,285.30 million baht outstanding. Top-10 borrower exposure of hire purchase portfolio stood at 1,436.56 million baht or 1.0% of the total hire purchase portfolio, or equal to 0.6% of the total credit portfolio.

For the commercial loan portfolio, it was diversified into four different sectors: manufacturing and commerce 10,496.69 million baht; real estate and construction, 11,696.34 million baht; public utilities and services, 23,908.50 million baht; and agricultural and mining, 408.41 million baht. Lending to the above industrial sectors represented 22.6%, 25.1%, 51.4%, and 0.9% of the total commercial loan portfolio, and 4.7%, 5.2%, 10.6%, and 0.2% of the total credit portfolio, respectively. As top-10 borrower exposure stood at 29,879.91 million baht or accounting for 13.3% of the total credit portfolio, there is slight concentration in public utilities and services as well as manufacturing and commercial sector which have been managed under risk management procedure. Moreover, commercial loan portfolios are almost fully collateralized. In loan approval process, appropriate proportion of collateral value and financing amount is maintained to ensure that risks were kept within a manageable level. Furthermore, collateral values will be regularly appraised and effective loan drawdown procedure has been implemented. Portfolio credit quality was closely monitored.

## 3.1.3 Collateral Risk

Collateral risk occurs from borrower defaults and the value after selling collaterals in the debt collection process cannot cover the original debt amount. As of December 31, 2016, lending portfolio of TISCO Group came mostly from TISCO Bank whereby 79.3% of the portfolio was asset backed or with collateral. For the hire purchase portfolio, the underlying asset under the loan agreement itself is still owned by TISCO Group. In case the borrowers of hire purchase loans cannot meet the terms and conditions, TISCO Group can follow up and seize the underlying assets immediately. After repossession, the process of asset liquidation can be completed within one month.

A major risk factor in the hire purchase business depends on the market value of used cars. A substantial decrease in the market value of a used vehicle results in credit loss, which directly affects the net income and capital of TISCO Group. Market prices for used cars depend on such diverse factors as market demand, type, brand, and tax regulations.

According to the past records, the recovery rate for asset liquidation in the secondary market was somewhat high at 70%-90% of the remaining net financing amount, which helped in absorbing losses from defaulted loans. TISCO Group has attempted to minimize credit risk by regularly updating its information regarding trends in the used car market, requiring high-value collateral, sufficient average down payment, and favoring well-known brands in the secondary market.

For commercial and mortgage loans, most collateral extended as loan guarantees was in the form of real estate, of which the value could be deducted for the purposes of loan loss provisioning. Collateral values were appraised according to regulations of the Bank of Thailand. The proportion of collateral value used in deducting the provisioning requirements for NPLs was 73.0% of the NPLs of commercial loan and mortgage loan.

Generally, the risk of real estate value changes depends on economic conditions. A recession in the Thai economy might result in lower values, which would require TISCO Group to reserve higher loan loss provisions. Moreover, the legal process of collateral acquisition through related laws and enforcement is both costly and time consuming. However, all pending cases are closely monitored on a regular basis.

### 3.1.4 Property Risk from Foreclosed Assets

Property risk from foreclosed assets is the impairment of assets transferred from loans, hire purchase receivable on which debtors had defaulted on their repayment obligations under the loan contracts or restructured receivables. The value of repossessed assets is stated at the lower of cost and net realizable value. Outstanding assets in the process of liquidation held by TISCO Group as of December 31, 2016 were worth 7.37 million baht, or 0.003% of total assets. Allowances for impairment stood at 61.5% of total foreclosed assets.

#### Credit Risk Management Framework

The Risk Management Committee is delegated to oversee credit risk management of the corporate portfolio. The committee is responsible for formulating credit risk strategies and establishing guidelines and limits, as well as advising other credit risk authorities and retaining accountability on related issues. It also monitors and reviews credit risks at the portfolio level and reports essential credit risk information to the Board.

Credit risk is mainly incurred from subsidiary companies, in which conducting loan as main business. Specific-Area credit risk authorities include the Credit Committee, and Problem Loan Committee, which are established to oversee credit risk management and control at in-depth transaction level of subsidiary companies. The Credit Committee is responsible for reviewing and granting credit approvals to any single client proposed by lending officers. The Credit Committee may delegate its authority to designated persons for authorizing lower-risk transactions. The Problem Loan Committee was set up to monitor and follow up overdue payment of problem loan accounts and foreclosed assets on a regular basis.

Sound credit risk assessments are key risk practices at TISCO Group such as credit analysis, credit rating, delinquency analysis, concentration level and risk capital. All loan origination must operate under a sound credit granting process in which an effective credit rating system is employed in key business area. In retail lending area, quantitative-oriented approaches to credit grading are implemented, considering its homogenous high-volume characteristics, with emphasis on the use of extensive data mining and analysis. In corporate lending area, qualitative-oriented credit grading approaches shall be employed, taking into account its highly varying risk profiles, with well-defined standard.

Concentration risks are also essential in credit portfolio risk management. Appropriate guidelines on concentration risks are set up considering appropriate business practice and company risk capital capacity.

TISCO Group uses credit risk management guidelines and limits that are comprehensively applied to all credit-related functions both at the portfolio and transactional levels, as well as monitoring and managing problem loan and foreclosed assets.

### 3.2 Liquidity Risk

Liquidity risk is the possibility that TISCO Group might not be able to meet its obligations to repay debts when they come due, whether as a result of a failure in cash management or an inability to raise funds to meet demand in time. Liquidity risk comes from internal and external factors. Internal factors are maturity mismatches in the assets and liabilities profile which affect the level of liquid assets, while market liquidity and depositor confidence represent external factors affecting liquidity risk.

As of December 31, 2016, the value of liquid assets is 45,969.18 million baht, which comprised of cash at 1,149.00 million baht compared to 1,101.29 million baht in December 31, 2015, net transactions with interbank and money market at 38,067.42 million baht compared to 31,162.64 million baht as of December 31, 2015 and net current investment at 6,752.76 million baht compared to 7,886.07 million baht as of December 31, 2015.

Currently, liquidity risk from the maturity mismatch is moderate, once adjustments for the historical behavior of creditors and debtors such as loan defaults or rollovers are taken into account. According to maturity mismatch profile within 1 year, the cumulative gap has shown the matured assets over the matured liabilities accounted for 59,465.36 million baht. In addition, emergency credit line, cash flow from operations as well as inter-bank borrowing shall be utilized as a cushion against funding risk that might occur.

As of December 31, 2016, the Bank reported deposit 155,067.52 million baht, the outstanding long-term debentures (both subordinated and unsubordinated) of 22,823.00 million baht and short-term debentures of 41,539.00 million baht, and bill of exchange amounted to 5,966.92 million baht.

### Liquidity Risk Management Framework

Funding risk management is overseen by the Risk Management Committee who delegates day-to-day management of liquidity position to the accountable business line, subject to independent oversight and compliance to the approved risk policies and regulatory requirements. Key funding risk policies involve the management of cash flow maturity profiles, concentrations, liquidity reserves, and emergency contingency plan. Funding risk strategies shall take into account the liquidity status in the market and how unexpected changes would affect the company's risks. A manageable level of maturity mismatches of cash flows from assets and liabilities shall then be consistently maintained and regularly monitored, together with the level of liquidity reserve. Funding sources shall be well-planned to optimize risk/return while controlling excess concentrations in certain funding sources is crucially required. Contingency procedures for liquidity management in the times of unexpected financial crisis must be established and made ready for timely activation.

#### 3.3 Market Risk

Market risk stems from adverse changes in securities prices and interest rates, which affect the volatilities of net income, capital, asset value, and liabilities of TISCO Group.

#### 3.3.1 Equity Price Volatility

As of December 31, 2016, the equity portfolio stood at 1,623.12 million baht, of which 405.15 million baht was listed equity, 781.89 million baht was ETF in current market value and 436.07 million baht was non-listed equity in book value.

TISCO Group gained profit from security investment amounted to 6.76 million baht. On the contrary, loss from the difference between fair value of securities as of December 31, 2016 and unrealized loss of securities according to the accounting standard of security foreclosure were 136.82 million baht.

(1) Listed Equity Risk and ETF

TISCO Group exposed to price risk from market price volatilities of listed equity and ETF investment. Investment portfolio in available-for-sale book stood at 1,187.03 million baht in which profit and loss will be realized when sale, however, a change in its value would impact the equity through unrealized gains or losses. As of December 31, 2016, unrealized loss from available-for-sale investments equaled 136.82 million baht.

TISCO Group calculates VaR for risk assessment purposes and files reports to management in charge as well as to the Risk Management Committee on a daily basis. VaR is a maximum potential loss at a predefined confidence level and time horizon. Three month investment horizon VaR at a 99.0% confidence level excluded unrealized gain/loss, as of December 31, 2016, was 154.87 million baht, decreased from 219.72 million baht as of December 31, 2015 mainly resulted from decreasing of market volatility from domestic and international events during the year. For effective risk management and control, trigger limits were set up to monitor the overall market risk profile according to internal guidelines, such as concentration trigger limit, stop-loss trigger limit, etc.

(2) Non-Listed Equity Risk

Non-listed equity portfolio's book value stood at 436.07 million baht, slightly decreased from 446.16 million baht from the end of 2015. Presently, our investment strategy is not to increase the size of the non-listed equity portfolio. TISCO Group is instead seeking opportunities to liquidate them, while at the same time closely monitoring portfolio quality on a regular basis.

### 3.3.2 Interest Rate Risk

Interest rate risk can be classified into two types; namely risk from interest-bearing assets and liabilities profile, and fixedincome risk.

(1) Risk from Interest-Bearing Assets and Liabilities Profile

Interest rate risk occurs whenever there is a mismatch in the re-pricing period of assets and liabilities. A movement in the level of interest rates may lead to higher borrowing costs when compared to earnings, resulting in lower interest rate income, which in turn influences TISCO Group's income and capital.

The Risk Management Committee also acts as the Assets and Liabilities Management Committee (ALCO), which is responsible for managing and maintaining interest rate risk at an appropriate level. TISCO Group's interest-bearing assets and liabilities structure, as of December 31, 2016, is provided in the following table.

					(Unit: Million baht)
Interest Bearing Assets and Liabilities	Changed within 1 month	Changed within 2-12 months	Changed within 1-2 years	Changed after 2 years	Total
Assets	76,227.53	68,735.80	53,640.81	65,559.65	264,163.79
Liabilities	(88,496.18)	(116,678.23)	(5,793.90)	(17,348.71)	(228,317.03)
Net Gap	(12,268.66)	(47,942.43)	47,846.91	48,210.94	35,846.76

Under the change of interest rate within 1 year, TISCO Group had liabilities over assets within 1 month cause the net gap to stand at 12,268.66 million baht and gap for liabilities over assets within 2-12 month stand at 47,942.43 million baht. Considering the interest rates outlook of stable to decline trend, the repricing gap structure was still under acceptable risk level.

## (2) Fixed-Income Risk

Fixed-income risk is the result of a decrease in the value of fixed-income instruments when interest rates increase. As yields in the market go up, the value of fixed-income instruments decreases to maintain yields at the same level.

TISCO Group's fixed-income portfolio as of December 31, 2016 stood at 5,536.86 million baht, decreased from 6,749.25 million baht at the end of 2015. Average duration of the bond portfolio was 0.22 year, decreasing from 0.38 year from the end of 2015. Meanwhile, average duration of the debenture portfolio was 1.68 years, decreasing from 2.36 years from the end of 2015. However, Fixed-income risk was under acceptable risk and also meets the purpose of maintaining liquidity reserves according to the BoT requirements.

#### Market Risk Management Framework

Risk Management Committee is responsible to oversee the portfolio risk management and control of market risks. The business lines are accountable to manage market risks in their portfolios within the guidelines and limits set by the Risk Management Committee. Specific-Purpose Risk Authorities have been established in high-risk areas to oversee all aspects of transaction-level risks, such as setting investment guidelines, authorizing investment transactions and trade counterparties etc.

Market exposures shall be grouped appropriately according to the nature and characteristics of risks involved. Suitable risk treatment framework shall be implemented to effectively manage each class of market exposures. Portfolio market risks of all assets and liabilities shall be assessed and quantified using the Value-at-Risk (VaR) concept employing methodologies and techniques appropriate to the nature of risks involved. Back-testing has been prudently performed to validate internal value-at-risk model. In addition, stress testing in place as a supplement to VaR is performed under various extreme scenarios. The risk assessment and corresponding risk treatment has taken into account the transaction intent as well as the market liquidity of the securities.

Interest rate risk from banking book is analyzed on the basis of mismatch between the timing of interest rate re-pricing of assets and liabilities and its potential impacts on future net interest income of TISCO Group under simulated scenarios.

Sophisticated market risk positions, such as derivatives securities, shall be handled with special attention. Derivative risks must be decomposed into basic risks and analyzed such that the inherent risk profile is clearly understood. In addition, derivative risk management policy has been set up in order to effectively control and manage risks from derivative transactions with appropriation to complexity of the derivative.

### 3.4 Operational Risk

Reference is made to the definition given by Basel Committee on Banking Supervision of the Bank for International Settlements and in accordance with the Policy Statement of the Bank of Thailand in regard to the Operational Risk Management. Operation Risk is defined as the vulnerability of earnings, capital, or business continuity due to inadequate or deficient or failed internal processes, people, technology or external factors including the legal risk and fraud risk. The impact can be classified into financial loss and non-financial loss as reputational damage and business opportunity losses. TISCO Group well realizes that the operational risk is one of the risks those may significantly impact to the business undertaking of TISCO Group. Thereby, TISCO Group puts more emphasis on the operational risk management and continuously develops the operational risk management programs and processes with an aim to minimize the possible operational risks.

#### Operational Risk Management Framework

The operational risk management policy is set by TISCO Financial Group Public Company Limited and coherent adoption across all subsidiary companies in TISCO Group. Operational Risk Management function performs duties in supporting and impelling all functions in proceeding operations in accordance with the framework stipulated in the operational risk management policy as well as providing assurance on the adequate control systems established for each business under risk-return perspectives. Compliance functions shall have duty in overseeing all functions to operate in compliance with the rules and regulations of the supervisory authorities. Internal Audit function shall independently conduct audit process and provide assurance on the internal control system and whole risk management processes under the supervision of the Audit Committee.

Pursuant to the operational risk management process of the TISCO Group, it starts from the establishment of operational risk management culture by building control awareness to all business units and educating them in regard to the stipulations according to the operational risk management framework for thorough understanding and perception. For practicing as risk owner, all functions shall have to participate and take accountabilities in managing operational risk of functions under their supervision. Operational Risk Management function shall have duty in managing overall operational risk in an enterprise wide addition to the duty in supporting, overseeing and monitoring all functions to proceed in accordance with the determined operational risk management framework. TISCO Group has planned to develop and determine Key Risk Indicator and Risk Limit comprehensively covering all risky aspects. In the process of operational risk assessment, Operational Risk Management function shall assess the

operational risk of each key business area with the participation of the business owner on a regular basis (Risk Profile). According to this process, the key operational risk would be identified together with the assessment on the control effectiveness. The remedial action plan would be subsequently determined in order to mitigate the revealed residual risks or prevent the incurrence of possible risks for properly mitigating risks to be within the acceptable risk level as deemed appropriate with the business undertaking of each business (Risk and Control Self-Assessment). The result of the risk assessment in corporate level would be reported to the Risk Management Committee and the Audit Committee for acknowledgement.

In regard to the incident management process, TISCO Group has arranged the supporting system to log and track the incidents. The purpose of the system arrangement is aimed to have the systematic and integrated remedial process with monitoring control for timely responses. Other than that, the incident and loss database would be gathered to make analysis for mitigating repeated risks for monitoring purpose in order to minimize the error rate or enhance the operational efficiency. The overall results of the incident incurrence within TISCO Group as well as the notable operational incidents would be reported to the relevant committees for acknowledgement and determination remedial actions as deemed appropriate.

In current environment, the trend of fraud incurrence including cyber-crime attack is dramatically increasing. TISCO Group has always alerted and proactively prepared to properly respond any threats including but not limited to the various patterns of possible fraud incurrence those may possibly impact to the business undertaking either in form of the financial or reputational losses or whatever impacts. Thereby, the fraud risk management process has been set up. Pursuant to this fraud risk management process, all possible fraud risk scheme shall be identified to assess the occurrence possibility and the impact level to the TISCO Group. The effectiveness of control systems those being implemented for risk mitigation shall be measured to evaluate the residual risks and determine the proper fraud response plan to mitigate risks to be in the acceptable level. Additionally, TISCO has also established the suspicious transaction monitoring process that cover all irregularities possibly incurred in each single business unit in order to have prudent investigation on the appropriateness of transactional execution. In regard to cyber-crime attack, the TISCO Group has studied the potential cyber-crime attack possibly impacted to the business undertaking or damage to the assets of the organization in order to well plan the prevention including the supporting plan when got impact from such event.

Whereas the TISCO Group undertakes financial businesses and provides financial services to customers, the continuity of business undertaking in order not to disrupt the services provision to the customers is the crucial matter that the TISCO Group highly emphasizes on. TISCO has well developed and proactively prepared readiness of every system and process relating to the critical businesses for ascertaining the continuous business operations (Business Continuity Plan) without any disruption. Within the Business Continuity Plan, it also covers the process for recovering the critical systems to resume their availabilities within the determined period and the other relevant contingency and backup plans. The actions according to the Business Continuity Plan is subjected to be tested on an regular basis in order to make all relevant business units perceive and understand their roles and responsibilities and actions required to be taken whenever disaster incurs. In addition, TISCO has realized the severity of several impacts those may affect to the safety of employees, customers, counterparties or other relevant parties, thereby, the Emergency Plan has been established as an integral part of the Business Continuity Plan to determine appropriate action plans for managing various emergency situations exposed from external events with the primary objective to secure the safety and minimize possible losses. In order to support and enhance the efficiency of the proceeding in accordance with the Business Continuity Plan, TISCO Group has determined communication plan and channels for communication between managements and employees including the communicating channels with the external parties in order to convey the situation updates and the corporate action plans to all relevant persons in the timely manner.

Besides, TISCO Group has expanded its businesses into various aspects in both extending the existing businesses as well as setting up new businesses; therefore, operational risk increased accordingly following the business expansion. Nevertheless, the inherent risks in all aspects of such new businesses were analyzed and well managed to assure that the possible risks were mitigated to be in acceptable risks with prudent control process establishment in compliance with TISCO New Business Guideline prior to launching.

### 3.5 Strategic Risk

Strategic Risk is a form of uncertainty stemming from the possibility that TISCO Group might make an adverse business decision, improper strategy implementation or misalignment between strategy, target, organization structure, competition and resources that affect TISCO Group's earnings and capital.

### 3.5.1 Risk from Economic Conditions and Business Competition

Although TISCO Group diversifies its businesses in areas of high potential, most of them are influenced by changes in economic conditions. For hire purchase businesses, growth and credit quality are directly affected by the state of the economy, levels of competition and growth in public consumption. Strong economic growth results in faster growth in asset size and revenues of TISCO Group, and vice-versa. Strong market share and competitive advantage, however, make TISCO Group less vulnerable to

negative economic factors. In addition, the acquisition of retail banking business from Standard Chartered Bank (Thai) Public Company Limited aimed to strengthen retail banking business and increase business opportunity to expand customer base from the increase in product offering as well as increasing benefit value from the transfer. The transfer is expected to be completed within 2017.

For the equity investment of TISCO Group portfolio, the economic outlook, capital market performance and investor sentiment is still crucial to TISCO Group's financial performance. In a bullish economy, equity prices tend to increase significantly, resulting in improving the Bank's profit and capital. Conversely, unexpected events, such as terrorist attacks and natural disasters may cause a substantial drop in equity values, adversely affecting TISCO Group's financial performance. While the brokerage and underwriting business also depends on the condition of the stock market, most income is derived from trading volumes, with the result that the impact of price levels may not be substantial. In effect, TISCO Group has adopted a variable cost structure in the brokerage business, which minimizes the impact of unfavorable market conditions.

The asset management business is dependent only to a minor degree on economic conditions as fee income is based on the net asset value of funds under management. Profit and loss from investments do not directly affect TISCO Group's financial results. However, higher competition on pricing structure is a major risk factor in this business.

### 3.5.2 Risk from Capital Adequacy

As of December 31, 2016, as TISCO Bank's capital requirement based on Basel III Internal Rating Based Approach (IRB), the regulatory capital adequacy ratio (BIS ratio) stood at 19.59% remaining higher than the 9.125% required by the Bank of Thailand. While Tier-I and Tier-II adequacy ratio stood at 14.73% and 4.86%, respectively, in which Tier-I adequacy ratio also remained higher than the minimum requirement at 6.625%. Meanwhile, the net capital rule (NCR) of TISCO Securities Co., Ltd. remained strong at 85.73%, greatly higher than the minimum required ratio by the SEC of 7.0%.

As an internal risk measurement of capital adequacy (ICAAP), the risk-based capital requirement of TISCO Group stood at 10,268.02 million baht, accounting for 29.6% of the projected total capital base of 34,678.53 million baht. In addition, capital surplus for future risks and business expansion stood at 24,410.51 million baht.

### 3.5.3 Risk from Subsidiaries' Financial Performance

TISCO Financial Group Plc. was established with the purpose of investing in other companies only. Therefore, the performance of the company depends on the performance of invested companies. Subsidiaries' risks involve the risk of TISCO Bank's business operation which is a core business of the company and other subsidiaries' business operations. The company holds shares of all 8 subsidiaries including TISCO Bank. However, while most of the net income comes from dividends received from its subsidiaries, volatile performance of subsidiaries may affect the overall the company's performance. In effect, the dividend payment to shareholders may also be volatile.

Profit recognition of TISCO Group came from all subsidiaries including TISCO Bank. As of December 2016, net profit of TISCO Bank and other subsidiaries was 4,564.68 million baht, where 895.62 million baht was from subsidiaries excluding TISCO Bank. Although the subsidiaries experienced outstanding business performance and generated profits to the company, investment strategy is important in the future. Therefore, the board of directors meeting has defined the investment policy for TISCO Group where the company will invest in those businesses having ability to support the competitive efficiency of the group. Besides, the market and industry trends, competitive environment and long-term profit making capability together with prudent risk management shall be considered.

Net income from subsidiaries, excluding TISCO Bank, accounted for 17.8% of total net income, which significantly affects the overall TISCO Group's income. Additionally, the net income from brokerage and investment banking are from TISCO Securities while net income from asset management is from TISCO Asset Management.

While subsidiary businesses are influenced by market activity and overall economic conditions, the impact of risk from securities and asset management businesses will have a significant effect only on Bank profitability, without having a severe impact on capital as the major focus is on services rather than lending or investment.

Internal control and risk management of subsidiaries is centralized at the Company which applying a universal set of standards and guidelines for all. The company sends its representatives to serve as directors at subsidiaries for at least half of the total directors and to participate in establishing important business policies, in which the annual business plans of subsidiaries require approval by the company.

## Strategic Risk Management Framework

The executive board and senior management directly oversee strategic risks of TISCO Group, with the policy to employ effective sound practices in strategic management that enable it to respond effectively to changes in the business environment and unexpected external events. Vision and mission statements reflect the company's core direction and how our business is conducted, around which all strategies and policies are formulated. Sufficient processes have been set up to carry out effective corporate strategy formulation, business planning, resource management, performance management, and other essential decision support systems. Strategic audit process is then performed at the board level of the company by non-management directors as the ultimate line of protection.

In organization and business practice, the principles and practices of good corporate governance have been adopted to protect the rights and interests of all stakeholders. The corporate governance framework has included corporate governance policy and strong systems of internal controls, which are subject to regular independent assessment and review.

TISCO Group manages strategic risk by setting up 3-year strategic plans to provide a clear business direction together with operating budgets. The plans are reviewed on an annual rolling basis and used to compare actual performance on a monthly basis.

## 4.2 Loans

## **Classification of assets**

Asset classification in TISCO group consists of loans and receivables, investments in securities and property foreclosed. Our asset classification policies are in compliance with those set by the BOT and the SEC. The details of asset classification as of December 31, 2016 are shown below:

					(1	Jnit: Million baht)
Classification	Loans and receivables	Investments in securities	Property foreclosed	Investment in receivable	Total	%

## Provision for Loan Loss Policy

TISCO Group's provisioning policy for bad debt allowances or losses from debt restructuring are in accordance with the regulations of the BOT and the SEC.

The provisioning requirements for bad debt allowances under the BOT regulations can be summarized as follows:

- 1. Assets classified as Loss shall be written off.
- 2. Assets classified as Doubtful to Loss require a provision of 100%.
- 3. Assets classified as Doubtful require a minimum provision of 100%.
- 4. Assets classified as Sub-Standard require a minimum provision of 100%.
- 5. Assets classified as Special Mention require a minimum provision of 2%.
- 6. Assets classified as Pass require a minimum provision of 1%.

The Bank of Thailand has imposed criteria to set up provisioning whereby the regulations require assets classified as Substandard, Doubtful, and Doubtful to loss to set a minimum provision in accordance with a 100% of the different between asset's carrying amount and present value of estimated future cash flow or the present value of estimated future cash flow from collaterals. Meanwhile, the loan portfolio with similar credit risk profile can be set on a portfolio basis following collective approach.

TISCO Group has a policy in applied portfolio provision basis or collective approach with loan portfolio which as similar credit profiles with adequate historical loss data. TISCO Group will prudently set provision level based on estimation of historical loss.

## **Provision of Asset Impairment Policy**

TISCO Group will reserve provisioning in cases of asset impairment by considering impairment indicators based on generally accepted accounting principles (GAAP) and by estimating the receivable value of the assets.

## Policy of revenue recognition on interest income

TISCO Group has a more conservative policy for recognition of interest income than the requirements of the BOT. The Group stops accruing income for loans on which interest payments are overdue by more than 1 month for commercial loans, and 3 months for retail loans, whether or not there is collateral. Furthermore, the Group will reverse all recorded accrued interest on such loans.

Income recognition of such loans will be reinstated to accrual basis only when the total overdue amount is received.

TISCO Group recognizes interest income from restructured loans, in corporate lending business only, on a cash basis. Income recognition will be restated to accrual basis only when receiving approval from the Problem Loan Committee, and assurance of borrower status regarding the capacity to repay principal and interest normally.

## 4.3 Investment in Securities

Details of investment in securities are shown in Notes to Financial Statements, 3.4 Investments.

## **Securities Investment Policy**

Securities investment policy is described in Part 1 Section 2 : Business Operations by Area, item 2.3

#### **Risk Management of Investment Portfolio**

TISCO Group diversifies its investments in order to avoid high concentrations in single securities. Appropriate investment opportunities are emphasized to ensure a proper risk-return trade-off. In addition, the Group has set up an integrated risk management system to aggregate all investment risks, where the issues of capital adequacy and the prospect of risk-return from each investment are incorporated to enable timely portfolio adjustment if required. Details of risk management are listed in Part 1 Section 3: Risk Factors.

#### Allowance for Impairment of Securities

TISCO Group sets allowances for impairment of securities according to accounting standards. Investments in securities held for trading purposes are determined at fair value. Gains or losses arising from changes in the value of securities are included in determining earnings. Investments in available-for-sale securities, both held for short-term and long-term investment, are determined at fair value. Changes in the value of the securities are shown as separate items in shareholders' equity until the securities are sold, after which they are included in determining earnings.

The fair value of marketable securities is based on the latest bid price of the last working day of the period as quoted on the SET. The fair value of government bonds, state enterprise securities and private debt instruments is determined by using the formula quoted by the BOT, which is based on the yield rate quoted by the Thai Bond Dealing Center or other financial institutions. The fair value of unit trusts is determined based on their net asset value.

In the event the Company and its subsidiaries reclassify their investments in securities, the investments are adjusted to reflect their fair value on the reclassification date. Differences between the carrying amount of the investments and their fair value on that date are included in determining earnings or recorded as a surplus (or deficit) from changes in the value of investments in shareholder equity, depending on the type of investment which is reclassified.

## 4.4 Policies on investment in subsidiaries and joint venture company

The details on investment in subsidiaries and joint venture company are presented in Notes to Financial Statements item 3.5 Investment in subsidiaries and joint venture

The subsidiaries and joint venture company has a policy to invest its funds in investment activities that generate sufficient returns in relation to risk, with the objective to maximize value creation for the Company and its shareholders. Each and every subsidiary and affiliate companies shall make dividend payments as advised by the Company. The considering was based on financial performance, long-term capital adequacy, capital expenditure requirements, and business strategies of each company. For TISCO Bank ("The Bank"), the Bank shall pay dividends at the appropriate rate to ensure that after the dividend payment, the Bank BIS ratio will be maintained above 12% to satisfy the Bank of Thailand's criteria for Qualified Bank.

The Board of Directors of each subsidiary and affiliate companies may from time to time pay interim dividends when it has sufficient profit.

## 8. Management

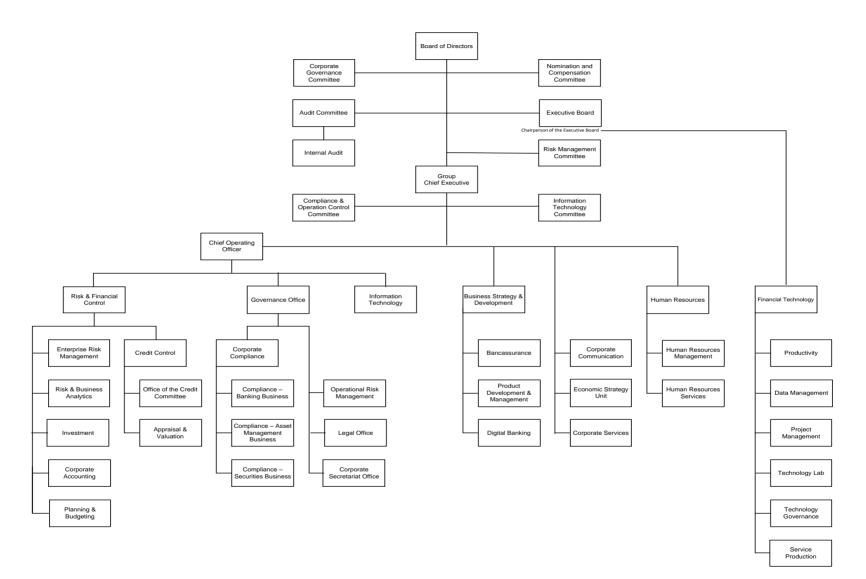

## 8.1 Management Structure and Board of Directors

TISCO Financial Group Public Company Limited, the parent company of TISCO Group, oversees, monitors and controls business operations of all subsidiary companies to ensure that all companies in TISCO Group operate under the same standard to maximize shareholders' benefit. The corporate governance, risk management, business development, compliance and corporate support functions are centralized at the Company. Subsidiary companies function as strategic business unit, responsible for marketing & customer relationship, and transaction processing & credit control activities.

The Board of Directors is responsible for monitoring and controlling business operations of TISCO Group. Other Boards and committees will be appointed according to the needs and suitability to carry out specific missions and tasks. The governance structure of TISCO Group is exhibited as follows;

## Management Structure of TISCO Financial Group Public Company Limited as of February 1, 2017

The Board structure is comprised of Board of Directors and 4 boards/committees were appointed by the Board of Directors: (1) Executive Board (2) Audit Committee, (3) Nomination and Compensation Committee, and (4) Corporate Governance Committee. In addition, in 2010, the Company transferred certain Management Committee and management supervising important functions within TISCO Group from subsidiary companies to be employed under the Company. The Company seconded those management to the same subsidiary companies for the same responsibilities on full time basis. This is to ensure that they shall devote their time to effectively manage subsidiary companies under TISCO Group strategy and plan approved by the Board of Directors.

## **Board of Directors Structure**

The Board of Directors consisted of Directors from diversified backgrounds and experience, with sufficient understanding of banking and finance, economics, law or any other fields deemed appropriate. The Board of Directors consisted of 12 directors, including 5 females and 7 males. The election of Board members followed the resolution of the shareholders meetings, as well as the laws and regulations and the Company's Articles of Association. The number of directors is appropriate for the Company's business operations, and the composition is in conformity with the notifications of the Bank of Thailand, the Capital Market Supervisory Board and the regulations of the Securities and Exchange Commission, as well as the diversity of age, gender, experience, and any other appropriate qualifications. As of March 1, 2017, the Board of Directors comprised the following directors:

- The seven Independent Directors<sup>1</sup>, 58.33% of the total number of directors, are Mr. Pliu Mangkornkanok, Assoc. Prof. Dr. Angkarat Priebjrivat, Prof. Dr. Pranee Tinakorn, Ms. Patareeya Benjapolchai, Ms. Panada Kanokwat, Prof. Dr. Teerana Bhongmakapat and Mr. Sathit Aungmanee
- The four Executive Directors<sup>2</sup>, 33.33% of the total number of directors, are Ms. Oranuch Apisaksirikul, Mr. Takashi Kurome and Mr. Chi-Hao Sun (Mr. Howard Sun)
- The one Non-executive Director, 8.33 % of the total number of directors, is Mr. Hon Kit Shing (Mr. Alexander H. Shing)

<sup>&</sup>lt;sup>1</sup> "Independent Director" has the meaning specified in the Bank of Thailand"s Notification No. SorNorSor. 13/2552 Re: Corporate governance of financial institutions, and the Capital Market Supervisory Board"s Notification No. TorJor. 28/2551, Re: Application and approval for offering newly issued shares, and/or their amendments (if any). Moreover, the number of shares held by an independent director and his/her related parties combined shall not exceed 0.5% of the total voting shares of the Bank, or the Bank"s parent company, subsidiaries, or associate companies, or major shareholders, or the persons having the authority to control the Bank. This shareholding restriction of not more than 0.5% is the Bank"s standard, which is a higher standard than that set by the Capital Market Supervisory Board, which prohibits an independent director from holding more than 1% of the total voting shares of the company of which he/she is a director.

<sup>&</sup>lt;sup>2</sup> "Executive Director" means any director who holds an executive position, or any director who is in charge of any actions deemed to be taken by executive, and shall include any authorized director except where it can be demonstrated that such authorized director signs on transactions which have been approved by the board of directors and jointly with other directors, following the Capital Market Supervisory Board"s Notification No. TorJor. 28/2551 Re: Application and approval for offering newly issued shares, and/or their amendments (if any).

## **Board of Directors' Meeting**

Board Meetings are regularly scheduled in advance so that each member of the Board can manage their time to attend the meetings. Furthermore, in case of special agenda, additional meetings may be scheduled as necessary. The Board of Directors also assigns the Corporate Secretary to send out notice of the meeting together with documents relating to the meeting agenda, stating clearly which matters are to be acknowledged, approved, or considered, to every director at least 7 days prior to the date set for the meeting, and notify related committees and managements 2-3 weeks prior each meetings. In case of the most confidential document the Corporate Secretary may hand over the documents with header label 'CONFIDENTIAL' during the meeting then collect them back after the meeting adjourned.

The Board of Directors' Meeting No. 6/2016 on October 28, 2016 approved the preliminary schedule of the Board of Directors' Meetings for the year 2017 as follow:

Board of Directors' Meeting	Date
No. 1/2017	Friday February 17, 2017
No. 2/2017	Friday April 21, 2017
No. 3/2017	Friday June 22, 2017
No. 4/2017	Friday August 18, 2017
No. 5/2017	Monday October 16, 2017
No. 6/2017	Friday December 8, 2017

The Board of Directors promotes transparent consideration of each issue and allocates adequate time for the management to present issues, with adequate time set aside for directors to thoroughly discuss important matters. The Board encourages the management to attend the Board of Directors' Meeting to present additional information relevant to their responsibilities.

During meetings, The Chairman of the Board should ensure that a number of Directors present at the meeting is not less than three-fourth of total Board members to constitute a quorum. Before the meeting, the Chairman should inform that the director(s) (who is interested director in any agenda would not allow to vote and comment) may relate to interest in any agenda, would not allow to vote and comment. After the meeting, the Corporate Secretary is responsible for preparing minutes of the meeting in which all issues, contents, and opinions are properly recorded and kept for inspection.

The Company also encourages non-executive directors to hold meetings as necessary to discuss issues without executive attendance. In 2016, there was one meeting among non-management directors in Agenda 4 of the Board of Directors' Meeting No. 4/2016 on July 26, 2016 which management directors as well as other management and staff voluntarily left the meeting, with formal minutes taking.

The remuneration of directors, proposed by the Nomination and Compensation Committee, shall be approved by shareholders. The scale and components of remuneration for directors and management has been set subject to the principle that such remuneration should be appealing enough to attract and retain quality directors, but avoid excessive pays. Remuneration for directors should be comparable to the general practice in the industry with regard to work experience and commitment, as well as the benefits each director brings. In addition, the remuneration shall be reviewed in comparison to comparable listed companies with similar size of business and the listed company average as disclosed in the Thai Institute of Directors Association (IOD)'s Thai Directors Compensation Survey.

Directors who are assigned with extra work (being members of other committee, for example) should be paid appropriately. The remuneration to be paid to such director or directors will be approved by the board. Remuneration for management shall be linked to the performance of TISCO Group, and that of each management member. The remuneration should be determined in accordance with the principles and policies approved by the Nomination and Compensation Committee with an endorsement from the Board of Directors.

To avoid conflict of interest and enhance transparency, remuneration shall always be approved from the higher level of command. Namely, shareholders approve the remuneration of the board of directors, the board of directors approves remuneration of the Executive Board, and the Executive Board approves remuneration of management upon the consideration of the Nomination and Compensation Committee.

Apart from the remuneration payable to directors of TISCO Financial Group Public Company Limited, TISCO Group only pays remuneration to subsidiary companies' directors who are non-executive director(s), that do not hold any directorship in TISCO Financial Group Public Company Limited and/or management position in TISCO Group of companies, in the same form and amount of TISCO Financial Group Public Company Limited's director. TISCO Group does not pay Executive Board meeting fee to director(s) who hold management position and full-time employment in TISCO Group, effective from January 1, 2017, to be valid until amended.

The fund is supervised by the fund committee, which is comprised of the employee's elected representatives and the employer's appointed representatives. Terms for fund committee members are valid for two years, and any individual can be reelected or re-appointed. The fund committee is responsible for the supervision of fund management and investment policy. To broaden choices of employees for more suit their risk appetite and needs, TISCO Group Provident Fund employs a master fund with 4 investment policies (sub funds) which are Fixed Income, Mixed, Equity and Foreign investments. There are 15 predefined investment allocation choices for members to choose from. Presently, the TISCO Group Master Fund Committee allows members to switch their investment policies twice a year.

# 8.5.2 General Human Resources Policies

To strengthen the group's corporate identity and brand personality, TISCO Group had established one Human Resources Policy that applies to all TISCO entities. Human Resources system and tools are developed to ensure the most effective human resource management and development. Human Resources operations are centralized for work efficiency and consistency. Meanwhile, decentralized authority and empowerment is embedded to allow business lines to execute competitive HR practices for competitive advantage in their own business environment and industry. The policy is shown as follows:

# 1. Principles of Dealing with People at TISCO Group

Because professionalism and trust in financial services is crucial, TISCO Group has established a clear definition of its corporate values in order to foster their development in TISCO Officers. The key to accommodate the journey of the organization towards success is to foster our officers to be sensible and do like TISCO Officers who are smart, well-doing and happy according to TISCO Group's values as below:

- 1 Mastery
- 2 Creativity
- 3 Integrity
- 4 Reliability
- 5 Customer Priority
- 6 Guidance

# 2. <u>Hiring</u>

In order to serve various business aims while maintaining a uniform corporate culture across the group, the selection and hiring of TISCO Group employees is based on corporate values and the required competency, i.e. Organizational Core Competencies, Functional Competencies, and Leadership Competencies.

To ensure good corporate governance, close relatives and immediate family members of the Board of Directors, the

Executive Board, and the Management Committee, will not be considered for any job vacancy in the TISCO Group. The same condition will apply to senior employees with managerial authority. Kin and immediate family members of other employees are to be considered on a case-by-case basis by senior management and the human resources function. Every candidate will be assessed to match their competency with the requirements of the position and potential for growth in the future.

TISCO Group has job promotion and job rotation policy in case of job vacancy in the TISCO Group. Even, the executive and human resource function also have duty to select the candidate from outside who have appropriate qualification in order to maintain the good quality of human resource. It is as important to hire the right person as it is to integrate newcomers into the organization so that their skills and behaviors can merge smoothly with TISCO Group culture.

# 3. Employment at TISCO Group

To uphold the highest standards of Good Corporate Governance, TISCO Group has established a "Business Code of Conduct" that demonstrates its determination to be a good corporate citizen in society. These principles are to be respected everywhere and under all circumstances. The management will implement the necessary processes to ensure that these principles are enforced at all levels. Employees who fail to abide with the Business Code of Conduct cannot be maintained in employment and will be asked to leave the organization. Employees should also inform vendors, suppliers and the providers of outsourced services of our Business Code of Conduct in the issues related to them and they should comply.

TISCO Group favors a policy of long-term employment. Separations are only for cases violating the Bank's principles, business misconduct, retirement, leaving voluntarily, and falling into the separation criteria as stated in the rules and regulations that TISCO Group has registered with the Department of Labor. Whenever an operation or business cannot be maintained under the parent company's umbrella (TISCO Financial Group Public Company Limited), reasonable steps will be undertaken to avoid overall loss of employment and by fully respecting all related labor laws. Reasonable efforts will be undertaken to reduce, as much as possible, the suffering of our employees.

# 4. Assessment and Development

# 4.1 Assessment

Employees are assessed in all steps of employee movements from selection of new candidates to promotion, career development and succession planning. Assessments and evaluations are carried out in many aspects, including knowledge, skills, competencies, performance, and leadership, as well as alignment with corporate values. This ensures that quality of people be fit with TISCO Group's strategy, culture, technology and environment, which in turn ensure maximum human resources value. The Human Resources function will provide assessment tools at the corporate level, whereas business units will have the freedom to customize assessment tools under corporate HR consultation to suit each business environment while maintaining corporate standards of people quality.

# 4.2 <u>Development</u>

To sustain organizational growth, TISCO has prioritized human resources development as a primary policy. Learning culture is established by providing development solutions that satisfy both organizational requirements and individual development. A policy that encourages continuous self-improvement through learning leads to sustainable growth and, finally, a High Performance Organization.

Employee development plans are specific to each job positions in TISSCO and covers 4 types of competencies, namely, organization core, business, technical, and leaderships.

The Human Resources function is responsible for providing knowledge and skills development at the corporate level for corporate competitive advantage. At the Business Unit level, the Human Resources function provides consultation and advice on development methodology and techniques to maximize learning and development of human capital to add value to the business. Human Resources is also responsible for the recording of organizational knowledge and the skills inventory of all business units in TISCO Group. The Human Resources Development activities in TISCO are handled by a dedicated team – "TISCO Learning Center".

# 5. Career Management

To motivate employees and build up the organization's strength, every employee has opportunities for career progression, both vertically and horizontally. TISCO Group emphasizes "*promotion from within*" for available job positions. Should there be no best fit within the organization, hiring from outside then comes into consideration. Promotions in TISCO are in accordance with employee competencies level and degree of matched competencies.

Career development and progression are open for upwards, downwards and lateral movements both within business units and functions and cross-functions across TISCO Group. Open communication in career development and progression is mandatory between line managers and employees to ensure transparency and clear expectations.

# 6. Performance Management

The objective of Performance Management is to build a workforce committed to the delivery of quality service while building a trusting relationship between line managers and job performers. Performance Management will be a key responsibility of every employee who assumes a supervisory role. Regular counseling and guidance are the best tools for improving performance and helping people develop their skills. Efficient performance management emphasizing the achievement of agreed objectives is a prime responsibility for each manager. Candidates for managerial positions should clearly have demonstrated a willingness and ability to apply the performance management system and process. The components of the performance management system and process are outlined in the guidelines and manuals that support Human Resource policy and will be developed, updated and maintained by the Human Resources function.

# 7. Employee Compensation and Benefits

TISCO Group recognizes that its employees are its most important resource and thus places great emphasis on their health, safety and well-being TISCO Group arranges for all employees to have annual physical checkups, and has set up programs to promote continuous exercise for employees to promote good health and immunity to illness. The nursing facilities are also available at main sites to provide first aid and healthcare and provide advice on health and well beings to the employees.

TISCO Group favors competitive, stimulating and fair remuneration structures offering an overall competitive and attractive compensation package. Various forms of compensation are designed in combination to best match the nature of various jobs, as well as supply and demand. Remuneration includes salary, fixed and variable incentives/bonuses, social welfare, provident fund, health care and other benefits.

TISCO Group has adopted market benchmarking compensation system, incorporated with the job levels and job family, so that it is flexible and able to adapt to the evolution of market conditions. Its structure allows sufficient flexibility to effectively reward high professional insight and performance as well as individual potential in both generalist and specialist employees.

TISCO Group will establish a compensation practice based on relevant external compensation levels as well as the requirement of internal fairness. It is the responsibility of each manager to propose, within the framework of TISCO Group policy, the remuneration of his/her employees, taking into account the local market, competency in financial industry, individual performance, skills and potential for development.

It is also the responsibility of each manager, if needed, with the support of the Human Resources function, to communicate properly, clearly and with sufficient transparency, the individual remuneration of each staff member regarding his/her specific responsibilities. The quality of communication in these matters is an essential part of the dialogue that each manager will have with his/her employees. It should be realized that, however important remuneration is for each employee, it is not remuneration alone that will stimulate the motivation of staff.

TISCO Group rewards employees in the following aspects:

# 7.1 Pay for roles and responsibilities

All jobs in TISCO Group are clearly identified by key roles and responsibilities and slotted into the broad banding system. Certain pay levels are determined for each job by market surveys and benchmarking. The jobholders will be rewarded within the pay range of their particular job and band.

Individual remuneration is considered from skills, knowledge, behavior, attitude and potential to contribute to the business. Development of competency level will be valued and rewarded. Line managers have a direct responsibility to assess team members for a fair reward.

# 7.2 Pay for performance

Performance objectives and targets for each employee are preset and agreed at the beginning of the financial year. Employees who meet their target are entitled to earn rewards in the form of monetary bonuses or incentives of any form that TISCO Group will announce in the future.

Different types of businesses in TISCO Group can have different combinations and methods of pay, with senior management agreement and CEO and President approval, in order to drive business success.

# 8. Human Resources Administration

To be fully in compliance with labor laws and regulations, all HR practices related to labor laws are centralized at the Human Resources function so as to be handled properly. Any policies and/or HR practices that contradict national labor laws will be automatically superseded and the Bank's rules will be revised in accordance with new labor laws.

Employee data recording is centralized at the Human Resources function for overall and high-level workforce

management. Transfers or changes in employee status at all business units across TISCO Group are to be reported and processed according to the corporate HR guidelines and procedures.

# 9. Succession Planning

To prepare the organization for the future, all key positions are required to develop successors and put development plans in place. Succession planning is overseen by the HR Committee and Nomination and Compensation Committee with support from the Human Resources function.

In addition, Nomination and Compensation Committee of the Company responsible to prepare the succession plan of the senior executives of all companies in TISCO Group for tranquil and continuous business operation. The succession plan will periodically review. The Nomination and Compensation Committee of the Company will select and nominate names of qualified candidates to the Board of Director for the position of senior executives in the Company and its subsidiaries which contribute more than 25% of total revenue of TISCO Group.

# 8.5.3 Organizational Development & the Learning process

# 9. Corporate Governance

# 9.1 Corporate Governance Policy

TISCO Group is dedicated to providing competitive and innovative financial solutions that ensure complete customer satisfaction. Our commitment to the highest ethical standards and good corporate governance is the result of our belief that a truly successful business is one that conducts itself as a good corporate citizen of the society in which it operates. This can only be achieved by ensuring that the rights and interests of all stakeholders, which includes shareholders, employees, customers, business partners and creditors, competitors, society and the environment, are fully protected.

TISCO Corporate Governance Policy, developed from the 2006 Good Corporate Governance Policy for listed companies in aligning with the guideline set by the Stock Exchange of Thailand, is established to define group governance structure, code of conduct, operating structure, charters of governance bodies, as well as centralized operating policies in various areas for coherent adoption across all subsidiary companies in TISCO Group. The parent and subsidiary companies of TISCO financial group are required to strictly comply with this Corporate Governance Policy.

However TISCO has reviewed and updated Corporate Governance Policy which was approved by the Board of Directors on December 9 2016, it is set up to provide guiding principles of good corporate governance to the directors, management, and employees of TISCO Group in order to ensure that the Group complies with all relevant laws and regulations and carries out duties with maximum accountability, transparency, and equitable treatment to all stakeholders so as to promote managerial integrity, effectiveness, and efficiency across the group. The Corporate Governance Principle covers 5 main areas, namely, the Rights and Equitable Treatment of Shareholders, Interest of Stakeholders, Disclosure and Transparency, Responsibilities of the Board, and Integrity and Ethics (details of Corporate Governance Policy are presented on www.tisco.co.th).

To ensure that all employees understand and effectively carry out their duties in compliance with the relevant regulations and business code of conduct, TISCO Group launched the compulsory Compliance and Human Resource Policy Test through the TISCO intranet system. The test results will be evaluated to determine the level of understanding so that appropriate communication methods will be carried out to enhance the staff's awareness of their roles and responsibilities in good corporate governance. Employees taking the test will be able to learn instantly from the provided answers to all questions. The Company has revised the test in compliance with changes in laws and regulations. Completion of the test is required by all employees as one of their Compulsory Key Performance Indicator. All new staff employed during the year is required to complete the test in addition to attending the orientation. The result of the test will be considered as part of their evaluation.

TISCO's Shareholder Ordinary General Meeting for the year 2016 has achieved a full score from the Ordinary General Meeting Assessment Program conducted by the Securities and Exchange Commission in cooperation with the Thai Listed Companies Association, and the Thai Investors Association. The Thai Institute of Directors (IOD) also evaluated TISCO as the listed company with "Excellent" corporate governance recognition level considering from information disclosed through the Stock Exchange of Thailand's information dissemination channel and other Company's public documents. The Company has reported the assessment result to the Corporate Governance Committee, which further reported to the Board of Directors to review IOD's recommendations to continuously develop and improve corporate governance of TISCO Group.

TISCO Group emphasizes on information disclosure. Thus, regular meetings with investors both local and foreign were held to illustrate TISCO Group's policies, exchange viewpoints, and respond to any queries on the basis of trustworthiness and professionalism concerning all stakeholders.

#### 1. Rights and Equitable Treatment of Shareholders

TISCO recognizes the basic rights of its shareholders and commits to protect and facilitate the exercise of its shareholders' rights. These rights include:

The right to buy, sell or transfer their shares; to receive their rightful portion of TISCO's profits; to easily obtain the relevant and adequate information on TISCO on a timely and regular basis; to participate effectively and vote in general shareholders meetings, and to be informed of the rules that govern the general shareholders' meeting; to elect and remove members of the Board of Directors; to participate in, and to be sufficiently informed on, decisions concerning fundamental company changes.

TISCO fairly and equally treats all shareholders, majority or minority, individual or institutional, foreign or Thai, either executive or non-executive. Among its policies are:

a) Minority shareholders are protected from abusive actions by, or in the interest of, controlling shareholders acting either directly or indirectly.

- b) Insider trading and self-dealing abuses are strictly prohibited.
- c) Members of TISCO's board and senior management are required to disclose to the Board whether they, directly, indirectly or on behalf of third parties, have a material interest in any transaction or matter directly affecting TISCO.

The question may be submitted in advance via fax or email to Investor Relations. In the meeting, the Chairman shall allocate appropriate time and encourage equal opportunity for shareholders to express their opinions and raise their queries at the meeting as per the agenda. TISCO shall endeavor to arrange for all directors, executives of the Company and subsidiaries, as well as the auditors to attend the shareholders' meeting to answer the queries. The Company's directors and management will clearly explain and clarify such matters.

For the 2016 Annual General Meeting, 12 directors (out of 12 members), TISCO Management Committee members, and the auditors attended the meeting. In addition, representatives from the Bank of Thailand were also observed the meeting.

Conduct of the meeting and voting

The meeting is conducted in accordance with the order of agenda as arranged in the notice of the meeting, unless the shareholders holding an aggregate number of shares not less than two-third of total number of shareholders attending the meeting resolve to change the order of the agenda. In addition, the shareholders holding an aggregate number of shares not less than one-third of the total number of paid-up shares may request that the meeting consider other matters in addition to those specified in the notice of the meeting. Before the meeting starts considering the agenda, the shareholders will be informed of number and proportion of shareholders or proxy attended the meeting, their voting rights, total votes required for each agenda and the voting process for each agenda. Every shareholder present in person or being represented by proxy is entitled to one vote per share, with the exception of cumulative voting for the appointment of directors. For the purpose of transparency and equitable treatment of the shareholders in the voting process, the Company shall utilize voting forms for all agenda and under cumulative voting for the appointment of director. The Company assigns inspectors to oversee and monitor the shareholders meeting to ensure that the meeting is conducted with transparency and compliance with the law and its Articles of Association. After the vote count is completed, voting results of each agenda will be announced to the meeting, by specifying the vote results as "For", "Against", and "Abstain" together with number of votes.

For the 2016 Annual General Meeting, the meeting was conducted according to the Company's Articles of Association with no additional agenda, no changes to the agenda order, or no changes in important information without prior notification to shareholders. In addition, the Company assigned DIA Audit Company Limited to ensure that the meeting was conducted with clear and transparency and in accordance with laws and the Company's Articles of Association. There were representatives of DIA Audit Company Limited to observe in the registration and vote counting throughout the meeting.

For director election agenda, TISCO has introduced a Cumulative Voting process, which allows minority shareholders to take part in nominating and electing Independent Directors. To ensure transparency and equitable treatment, shareholders are allowed to cast their votes for individual director.

The Company shall give notification of the shareholders' meeting resolutions to all investors through the SET's information dissemination channel within the same day of the meeting or at least one hour before the opening of the Stock Exchange of Thailand on the next working day. In addition, the Company shall also prepare the minutes of the meeting in which all relevant information, including all clarifications, queries, opinions, and resolutions are recorded and categorized into "For", "Against", and "Abstain" votes. TISCO shall disseminate the above minutes on its website and submit it to the Stock Exchange of Thailand within 14 days from the date of the meeting. The minutes of the meeting will be kept at the office. In addition, TISCO has arranged for a recording of the shareholders' meeting to be available on CD. # 4. Responsibilities of the Board

The Board of Directors is appointed by the shareholders to take overall responsibility for TISCO. These include directing, approving, and overseeing the implementation of, the group strategy, corporate governance and corporate values. The Board is responsible for selection of a qualified Group CEO and key senior management including oversight of the succession plan. It is also responsible for oversight of the Group CEO and senior management, and bears ultimate responsibilities for TISCO's business, risk strategy, and financial soundness as well as how TISCO organizes and governs itself. The Board is also responsible for annually review vision, mission and corporate value along with the business strategy for achieving the objectives and sustainable growth. In addition, monitoring the implementation of business strategy is the one of the Board's responsibility as well.

With the above responsibilities, TISCO has a policy to select its Board that possess, both as individual board members and collectively, appropriate and diverse experience, relevant competencies and personal qualities, including professionalism, personal integrity, and ability to make independent and analytical inquiry, and understand its business.

# 4.1 Board Structure

The Board members are selected on the basis of, among other things, knowledge, experience, skill, diversity of expertise, integrity, ability to make independent analytical inquiries, and their understanding of TISCO Group's business environment. TISCO has clearly established the proper structure of the Board as well as Guidelines for Board Composition and Selection Criteria with regard to the proportion of independent directors, management directors, and directors nominated by major shareholders to ensure the appropriateness of the Board's composition. In addition, the term of office of TISCO's directors is 1 year as specified in the Articles of Association, whereby the whole Board of Directors shall be simultaneously elected at the annual general meeting each year. However, the former Board of Directors shall remain in office to conduct the business of the Company as necessary until the new Board of Directors take office.

Recognizing the crucial of their roles and to be in compliance with the Bank of Thailand regulations, directors, managers and person with controlling power are allowed to assume the position of Chairman, executive director, or director with signatory authority in no more than 3 listed companies. Directors and management should avoid other positions or jobs that may lead to conflicts of interest.

The Chairman of the Board of Directors shall be non-executive, and the Chairman of the Board of Directors and the Chairperson of the Audit Committee shall not be a member in any other committees. Moreover, the Board also clearly separates its roles and responsibilities from those of management to ensure a balance of power and authority, and to avoid a situation where a single individual has unfettered power in decision-making. For example, the Chairman of the Board of Directors and the top management shall not be the same person, and their roles and responsibilities must be clearly separated. To achieve high standards of performance, the Board delegates other committees to take on tasks that require in-depth consideration, such as the Executive Board, the Audit Committee, the Nomination and Compensation Committee and Corporate Governance Committee. TISCO assigns the responsibility of Corporate Secretary to take care of the Board's activities, monitoring compliance to the Board's resolution, handling Board Meeting and shareholders' meeting on matters concerning notice, minutes, including other duties as required by related laws and regulations of the governing authorities.

Moreover, to be compliance with the Securities and Exchange Act B.E. 2535, the Company assigned Committees and authorized persons in management (according to the Financial Institution Operation Act, B.E. 2551) to compile reports on their own interests and any involving persons to Corporate Secretary. Once any changes on the information are made, Corporate Secretary is responsible for restoring the data and reporting the changes to Chairman of the Board and Chairperson of the Audit Committee.

# 4.2 Board Self-assessment

In order to improve its performance, the Board of Directors has formulated self-assessment process to assess Board performance and efficiency according to corporate governance best practices. The Board of Directors assigns the Nomination and Compensation Committee to prepare and recommend Board Performance Self-assessment Guidelines for the Board's approval. The Nomination and Compensation Committee then reports the assessment result to the Board for acknowledgment.

Said assessment is essential to assess the appropriateness of the Board's composition and Board performance according to corporate governance best practices. The Board of Directors shall analyze the assessment results, recommendations and remarks from Board members and consider applying according to the Company's business environment and operations.

In 2015, the Nomination and Compensation Committee revised the self-assessment form to be in compliance with the Thai Director Association (IOD) and to be more accurate and suitable for the Company's business, good corporate governance and board's responsibilities. The assessment divided into 6 areas: 1) Board Policy, 2) Board Performance, 3) Board Structure, 4) Board Style, 5) Board Meetings, and 6) Board Members. The aforementioned self-assessment consists of two aspects, which are 1) comparison between usual practice and best practice and 2) efficiency. In the year 2015, the Committee agreed that the Board Performance, Board Structure, Board Members, Board Policy, Board Performance and Board Meetings were up to best practice

standard. As for the efficiency, most Board members give the 'excellent' score to all 6 areas of assessment. Certain areas naming Board Policy and Board Meeting were evaluated as 'satisfied'. Thus, the Committees added comments and suggestions in the assessment so that the Company could take it to consideration for further improvement.

In 2016, the Nomination and Compensation Committee provided the self-assessment divided into 2 forms: whole and individual which approved by the Board of Directors. Then the Corporate Secretary submitted the whole assessment which divided into 6 areas: 1) Board Policy, 2) Board Performance, 3) Board Structure, 4) Board Style, 5) Board Meetings, and 6) Board Members. The aforementioned self-assessment consists of two aspects, which are 1) comparison between usual practice and best practice and 2) efficiency as well as the individual assessment with effective aspect which divided into 3 areas: 1) Board structure and qualifications, 2) Board meeting, and 3) Roles, duties and responsibilities of the board.

Result of the year 2016, the Committee agreed that the Board Performance, Board Structure, Board Members, Board Policy, Board Performance and Board Meetings were up to best practice standard. As for the efficiency, most Board members give the 'excellent' score to all 6 areas of assessment. Certain areas naming Board Policy, Board Performance, and Board Meeting were evaluated as 'satisfied'. Thus, the Committees added comments and suggestions in the assessment so that the Company could take it to consideration for further improvement.

# 4.3 Remuneration

To ensure that the remuneration policies are set up with transparency, the Board of Directors assigns the Nomination and Compensation Committee to formulate director remuneration policies with clear and transparent criteria. Director remuneration shall reflect their duties and responsibilities. Directors who are assigned with extra work should receive appropriate remuneration for special assignments. The Committee shall propose the remuneration to the Board Meeting and shareholders' meeting for approval. Remuneration for directors should be comparable to general practice in the industry with regard to work experience, expertise, commitment, as well as the contribution or benefit each director brings.

# 4.4 Board and Management Training

When a new director is appointed to the Board, senior management will arrange for an orientation regarding TISCO Group's business operations and past performance to provide clear understanding and enable the director to fully perform his/her duties. The Company shall also provide a copy of the Director Manual and the Corporate Governance Policy and to such director. It is TISCO Group's policy to encourage trainings and educational activities for directors on a regular basis. The Company has subscribed for membership in The Thai Institute of Directors Association for directors in order to keep abreast of news and updates as well as to attend trainings beneficial to a listed company directorship. Training schedules shall be regularly notified to the director in advance.

# 4.5 Group Chief Executive Performance Assessment

The Board of Directors assigns the Nomination and Compensation Committee to prepare and recommend the Group Chief Executive Performance Assessment Guidelines for the Board's approval. The Nomination and Compensation Committee shall arrange the meeting(s) between the Board and Management in absence of the Top Management at least once a year prior to his/her annual performance Assessment. The Nomination and Compensation Committee then reports the assessment result to the Board Meeting. The assessment shall be divided into 2 main parts: Financial KPI and Non-Financial KPI. The set KPI is aligning with Company Vision Mission and short-term & long-term goal of the Company in considering the business situation and environment.

To ensure the most effectiveness on the assessment, the Nomination and Compensation Committee will arrange the meeting(s) between the Board and Management of TISCO Group, in absence of the Top Management at least once a year prior to his/her annual performance Assessment. In addition, for the performance assessment of TISCO Group's Chief Executive the assessment will take into the consideration the assessment result from sub-committees, namely the Audit Committee and the Corporate Governance Committee, and together with the assessment from the Nomination and Compensation Committee. The assessment result will be reported in the Board of Directors' Meeting.

# 4.6 Succession Planning

To ensure stability and continuity of TISCO Group business operations, successor of all key positions has been determined. The Board of Directors assigns the Nomination and Compensation Committee to oversee the preparation of Top Management's succession plan. Said plan shall be regularly reviewed as appropriate. For other senior management positions, Top Management and Human Resources Function shall review and evaluate the successors for the Nomination and Compensation Committee's approval by considering factors that is qualification, knowledge, ability, experience, and evaluation of qualified management for successor in each position.

# 5. Integrity and Ethics

A reputation for integrity has been a cornerstone of TISCO's business since its inception. This provides confidence to all stakeholders that TISCO and its employees are performing and behaving consistently to the highest standards. They are guided by a set of values, such as compassion, dependability, honesty, loyalty, maturity, objectivity, respect, trust and professionalism. Integrity is TISCO's fundamental requirement in choosing and retaining its employees.

The members of the Board of Directors and employees of TISCO including the Group CEO and senior management also strive to maintain the highest standards of ethical conduct including:

- a) Compliance with applicable laws and regulations.
- b) Conflict of interest must be declared and appropriate arrangements made to ensure that those with a material interest are not involved in the decision-making process.
- c) Improper payments of any kind are prohibited; similarly no gift whose value is material and which may be interpreted as a form of inducement should be accepted or offered by TISCO's employees.
- d) Ethical issues must be dealt with in an efficient and transparent manner.

# **Anti-Corruption Policy**

In 2011, the Board of Directors approved to set up **-TISCO Group Anti-Corruption Policy**, with an aim to enhance integrity and ethically business operation within TISCO group. Aside from the policy which is set up as business conduct guidance, the company has, over the year, consistently supported and participated in numerous anti-corruption activities. On October 8, 2013, TISCO was among the CAC member companies, certified as allies of the Thailand's Private Sector Collective Action Coalition Against Corruption and also renewed the above membership after completion of the first three-year term on August 16, 2016. For many years, the company has continuously support the activities held by the coalition e.g. communicating the anti-corruption policy in companywide, participating in the anti-corruption walk rally on "Anti-Corruption Day 2016" on September 11, 2016 at Royal Plaza (Sanam Luang).

For several times, TISCO Management has been invited to be key speakers in notable talks as well as taking part in numerous corporate governance supporting activities such as in 2016 being a keynote speaker of "CAC Company Visit" by the Thai Listed Companies Association and IOD for studying the anti-corruption policy and guideline by operating business with social responsibilities and good corporate governance.

# 9.2 Other Committees

To optimize the efficiency of its corporate governance and achieve high standards of performance, the Board of Directors delegates committees to take on tasks that require detailed review or in-depth consideration. Such committees as the Executive Board, the Audit Committee, the Nomination and Compensation Committee, and others if necessary, are entitled to make decisions on behalf of the Board of Directors or submit recommendations for consideration, depending on the committee's specific charter. The structure of each committee shall be determined by the size of business, the scope of operation, the composition of the committee, the experience and expertise of each director, and in compliance with the Principles of Good Corporate Governance. The scope of authority given to other committees shall exclude approval for conducting transactions in which the committee member has or may have conflict of interest.

The Board of Directors is accountable for clearly defining and separating the roles and responsibilities of the Board of Directors, the Audit Committee, the Nomination and Compensation Committee, the Corporate Governance Committee and the Executive Board as detailed below. (Detail of Management Structure is described under Section 8.1.)

#### Executive Board

The Executive Board is authorized to act in operational matters that require in depth consideration in policy, procedural, human resources and administrative issues, which includes among other things, making recommendations to the Board on matters of budget allocation. # 9.3 Directors, Independent Directors and Management Selection Guidelines

#### 9.3.1 Director and Independent Director Nomination

The Nomination and Compensation Committee shall, upon contemplating Company's need and good corporate governance, identify and propose qualified nominees, with knowledge, experiences, sufficient understanding of banking and finance including securities business, economics, law or any other fields deem appropriate. The Nomination and Compensation Committee shall consider the recommendation from minority shareholders on the nomination of directors or independent directors according to the Company's criteria as specified under Section 9.1.1

The Nomination and Compensation Committee shall recommend the Board to consider the appointment of new director and/or independent director for replacement of any vacancy occurring otherwise than by rotation, or propose the shareholders the election of directors to replace those who retire by rotation or appointment of additional directors and/or independent director. The election, appointment and removal criteria are as follows:

- The shareholders shall, from time to time, by resolution of a general meeting of shareholders, determine the number of directors, which shall not be less than five, provided that not less than one half of the directors must domicile in Thailand. In addition, the number of directors who are persons of Thai Nationality shall be in compliance with related law.
- 2. The general meeting of shareholders shall elect directors on the following criteria and procedures:
  - (1) Each shareholder shall have a number of votes equal to the number of shares multiplied by the number of the directors to be elected.
  - (2) Each shareholder may exercise all the votes he or she has under (1) to elect one or several persons as director or directors. If several persons are to be elected as directors, the shareholder may allot his or her votes to any person in any number.
  - (3) The candidates shall be ranked in descending order from the highest number of votes received to the lowest, and shall be elected as directors in that order until all of the director positions are filled. In case that number of votes for candidates are tied and would otherwise cause the number of directors to be exceeded, the remaining elections shall be made by drawing lots.
- 3. At the general meeting of shareholders of each calendar year, the whole board of directors shall be simultaneously elected. However, the former board of directors shall remain in office to conduct the business of the company for the time being, as necessary, until the new board of directors takes office. Retired directors are eligible for re-election.
- 4. A director can be elected or removed only by the shareholders at a general meeting. A Board vacancy occurring for any reason other than rotation or retirement may be filled up by the remaining directors, unless, the term of the original director is less than two months. For the purpose thereof, the resolution of the appointment of new directors shall be valid with the vote of not less than three-fourths of the number of remaining directors. However, any person so appointed shall hold office only for the remainder of the term of the director to whom he has succeeded. If a general meeting of the shareholders removes a director, and appoints another person in his place, the person so appointed shall hold office only for the term of the director so removed.
- 5. A general meeting of shareholders may resolve to remove a director before expiration of office with the votes of not less than three-fourths of the number of shareholders who attend the meeting and have right to vote. Such a motion must also represent an agreed number of shares equal to or not less than half of the total shares held by the shareholders who attend the meeting and have right to vote.

In terms of balance of power, it was determined to be in the Company's interest to have more non-executive directors than executive directors whereby directors who are representative of shareholders shall be determined based on proportion of their shareholding.

#### 9.3.2 Management Selection

The Nomination and Compensation Committee shall identify and propose qualified nominees with necessary expertise to be appointed as Top Management to the Board. The prerequisites in selection should generally include consideration on the candidates' character, technical competence, and employment experience in the financial services field. The successful candidate should share the board's operating philosophy and vision of the Company's future in order to ensure that the institution's goals are met. It is important that mutual trust and a close working relationship are established. The Nomination and Compensation Committee shall recommend qualified candidates to the Board of Directors for approval.

For other senior executive positions, Top Management shall identify and propose qualified nominees for the Nomination and Compensation Committee's consideration and further recommendation to the Executive Board for approval.

# 9.4 Corporate Governance of Subsidiary Companies and Joint Companies

The Company, the parent company of TISCO Group, oversees, monitors and controls business operations of all subsidiary companies to ensure that all companies in TISCO Group operate under the same standard to maximize shareholders' benefit. The corporate governance, risk management, business development, compliance and corporate support functions are centralized at the Company. Subsidiary companies function as strategic business unit, responsible for marketing & customer relationship, and transaction processing & credit control activities. Details on management structure are as shown on page 8-2.

<sup>&</sup>lt;sup>1</sup> According to the Notification of Capital Market Supervisory Board No. Tor Chor 4/2009, Application for and Approval of Offer for Sale of Newly Issued Shares (No.2)

The Board structure is comprised of 4 boards/committees: (1) Board of Directors, (2) Executive Board, (3) Audit Committee and (4) Nomination and Compensation Committee. In addition, in 2010, the Company transferred certain Management Committee and management supervising important functions within TISCO Group from subsidiary companies to be employed under the Company. The Company seconded those management to the same subsidiary companies for the same responsibilities on full time basis. This is to ensure that they shall devote their time to effectively manage subsidiary companies under TISCO Group strategy and plan approved by the Board of Directors.

To ensure coherent adoption of Corporate Governance across all subsidiary companies in TISCO Group<sup>2</sup>, roles and responsibility of the Directors and the Management who the Company seconded to manage the subsidiary companies has been clearly set. There are follow-ups procedures set to subsidiaries to ensure their promptly disclosure of any important information in accordance with relevant laws and regulations and to ensure that the subsidiaries are sufficient and appropriate internal control system, including monitoring Directors and the Managements to fulfill their duties and responsibilities according to the governed law and regulations. As stated, the Board of Directors has delegated its monitoring and supervising roles to certain Management and sub-committees. Details on scope of authorities, duties and responsibilities of Sub-Committees are as shown in subtopic 8.1 and 9.2. For subsidiary companies' related party transaction with related parties, significant acquisitions or dispositions of assets, or other significant transactions of subsidiary companies, i.e. termination of subsidiary companies, capital share increase or reduction must be approved by the Board of Directors or in the Shareholders' Meetings prior to conducting the transactions. Over the period, the Company has strictly followed Regulations of Stock Exchange of Thailand, Notification of the Securities and Exchange Commission, and relevant Notification of Capital Market Supervisory Board regarding any related party transactions and any transaction that may cause conflicts of interest.

# 9.4.1 Roles and Responsibilities of the Board

Key roles of the Board of Directors are divided into 2 areas: Performance roles, and Compliance roles. This illustrates that the Board of Directors not only places great emphasis on overseeing the Company's policy and strategic planning, but that it is also responsible for monitoring the Company's operations to ensure that key policies are implemented effectively and efficiently and in accordance with all laws, rules and regulations as well as upholding the highest ethical standards.

#### (1) Performance roles of the Board – Strategy and policy formulation

The Board oversees the development of a long-term strategic plan, which reflects the Board's general business philosophy and vision for the future of the Company. Short-term business plans should outline specific and measurable targets that management adheres to and that are evaluated at regular intervals. The Board approves a business plan as a guideline for staff and annual budgets prepared by the management. The business plan also includes key performance indicators and business targets wherein variation from these targets is regularly measured and analyzed. In addition, business performance analysis prepared by management is regularly reported to the Board to provide updates on progress and achievement of targets. Timely performance monitoring and assessment helps the Company identify significant deviations of results from predefined business plans in order to perform corrective actions promptly.

The Board determines the operational policies designed to regulate areas of fiduciary and insider activities, human resource management, financial disclosure, auditing and investments that are consistent with TISCO Group's long-term and short-term strategic plans. By approving the implementation of such policies and procedures developed by management, the Board defines what practices are acceptable and in line with the overall business philosophy of the institution. Policies should be devised to assist management in determining what actions to take in various situations, limiting unnecessary errors resulting from ill-informed judgments.

All major activities of TISCO Group are to be regulated by policy which shall be flexible. When required, they should extend to cover new or improved practices and adapt to changing business conditions. Having clearly written policies prevents miscommunication. Newly introduced activities should not be undertaken without proper implementation of policy. The Board should specify appropriate procedures in monitoring and reporting risk activity.

In implementing policies, clear standards of performance are communicated through all levels of the Company, providing a single, authoritative source of reference. The Board also establishes the norm of periodically reviewing policies and revising such policies as necessary to ensure that they remain consistent with the institution's long and short term strategic plans.

TISCO Group has placed great emphasis on managing its business operations effectively under good governance guidelines. TISCO Group has no policy to encourage transactions between related parties or any other transactions that may result in a conflict of interest. Should any such transactions occur, they must be considered thoroughly by the Audit Committee. The Audit Committee shall report and/or propose to the Board of Directors Meeting for approval, as the case may be. The Company shall consider said transactions with the same conditions as those governing normal business transactions. Persons with vested interests

<sup>&</sup>lt;sup>2</sup> According to the Notification of Capital Market Supervisory Board Re: Application for and Approval of Offer for Sale of Newly Issued Shares

shall not be entitled to vote for the approval of said transactions.

## (2) Compliance roles of the Board – Supervising, Monitoring, and Accountability

Although the Board delegates a substantial part of its administrative function including day-to-day operations to a full-time management team of executives, in fulfilling its compliance roles, the Board is responsible for monitoring the Company's operations. The Board must be continually aware of the institution's operating environment. Directors are to be well informed of internal and external factors affecting the institution, including business environments, legal and regulatory frameworks. Directors also be aware of the potential liabilities imposed on them by law or regulations and ensure that the Company has appropriate policies and procedures in place to maintain compliance with them. Directors should also be aware and keep themselves updated on local, regional, national, and international financial trends and any statutory and regulatory changes affecting the Company.

The primary mechanism for overseeing TISCO Group's operations is regularly reported to the Board from the management containing relevant information regarding financial performance, management of the loan portfolio, liquidity risk, market risk, investment, assets and liabilities, and compliance. The Board shall carefully review reports and be aware of any warning signs of deteriorating performance, increased risk, abuse of power within the management, problems with internal control systems, compliance issues or issues relating to the accuracy and reliability of the reports.

In addition to providing the reports noted above, management should regularly brief the Board on the business environment, market trends, industry benchmarks, regulatory changes and macro-economic indicators. Management should be expected to promptly alert the Board of any competitive threats, business opportunities and changes within the industry, regulatory procedures that may impact the institution or information which would assist the Board in strategic planning, setting policy, or monitoring operations or business performance.

On the Board's role in supervising risk management, the Board ensures that management has identified potential risks and has established an adequate risk management process to assist in identification, measurement, monitoring and control of various categories of risk commonly encountered by financial institutions. It is the responsibility of the Board to approve and periodically review TISCO Group's risk management strategies that are ultimately implemented by management.

TISCO Group needs to comply with a large number of regulatory requirements, including various reporting obligations. It is the responsibility of the Board to establish and maintain rigorous internal controls to ensure that TISCO Group complies with all relevant laws and regulations and to highlight potential or actual breaches if and when they occur.

# 9.5 Control of Internal Information

TISCO Group's compliance manual acts as a set of guidelines to help employees perform their duties fairly and honestly, comply with applicable laws and regulations, avoid conflicts of interest, and not seek to benefit from insider information. Business guidelines, regulations, and the code of conduct have all been compiled to create the Company's compliance manual. With respect to TISCO Group's regulations governing employee securities trading, the Group requires management and employees to open trading accounts with TISCO Securities, its subsidiary. In this regard, he or she must, however the case may be, report their transaction to the Compliance function. Furthermore, the Group also prohibits senior management and insiders from trading the Company's shares within 7 working days before last day of the month until 2 days after the Company's monthly financial statements or concise assets and liabilities statement (C.B 1.1) are published. Penalties shall be imposed for any breaches.

# 9.6 Auditor's Fee

9.6.1 Audit Fee

The Company and its subsidiaries for the year 2016 amounting of 7,600,000 Baht to EY Office Limited.

9.6.2 Non Audit Fee

The Company paid non-audit fees in 2016 amounted of 1,050,000 Baht to EY Office Limited. These fees were for special audit under the requirement of the Bank of Thailand.

# 9.7 Compliance with Related Corporate Governance Practices

#### 9.7.1 Business Ethics

TISCO Group has introduced a code of business ethics into the compliance manual and has established an Employee Code of Conduct to assist employees in performing their duties with integrity and fairness. The Corporate Governance Guidelines are displayed on the intranet system, "mytisco" for the management and employees at all level to follow. Additionally, in order to ensure honest and fair performance of the management and employees with regard to TISCO Bank, stakeholders and the public, TISCO Bank requires compliance with these regulations, and will impose serious penalties for any violations. The Compliance Function is charged with monitoring performance in accordance with the code of business ethics. A summary of TISCO Bank's code of business ethics is as follows:

3.	The Company disclose CEO's compensation	The Group Chief Executive is a member of the Company's Management Committee and the compensation of the Group Chief Executive is included in the disclosure of total remuneration of management.

# **10.** Corporate Social Responsibility

TISCO Group has placed great importance on doing business responsibly by formulating sustainability strategy elaborately in economic, society, environment and governance for the sustainable development of business and society at large, as disclosed in part 2 under the topic Corporate Social Responsibility. In 2016, TISCO Group received the Certificate of ESG 100 Company for two consecutive years from Thaipat Institute as 1 of 100 listed companies in Thailand with the outstanding performance in term of governance, society and environment.

# 10.1 Economic

Over the past 47 years, TISCO Group has been growing consistently with the sustainable development strategy driving behind. Even in the economic volatility situation, the satisfied profit has been generated under holding company management which is flexible and beneficial to business and customer base expansion including IT development to maintain our position as "Top Advisory House" that offers integrated financial services.

In 2016, TISCO Group strengthened its retail business by signing the contract for the transfer of retail banking business from Standard Chartered Bank (Thai) Public Company Limited to substantially increase customer base, franchise expansion, retail distribution channels, and more complete product lines. To create a common understanding on this matter, TISCO Group has prepared the comprehensive communication plan for the customers with the convenient contact channels and 24×7 Contact Center. In addition, another business expansion was microfinance business under TISCO Group called "Somwang Ngern Sang Dai" that has been expanded its branch network nationwide to enhance customers' convenience in accessing formal financial service for entrepreneurship. In the meantime, Somwang branch team also encouraged financial guidance in the communities through the program under the theme "Smart Saving, Smart Spending", focusing on household financial planning, appropriate saving, shark loan awareness, spending discipline as well as loan awareness. The program is part of financial discipline strengthening for overall society that also helps improve the quality of people who are TISCO potential customers. By the year 2016, the financial trainings were held 123 times in 60 provinces and covered 24,150 people, mostly local government officials, merchants, and farmers. After each training session, the appropriate measurable questionnaire was conducted by 74% of participants with the result shown all corrects for 90%.

In addition, to benefit every customer group: retail, corporate, and institution, TISCO Group has innovatively developed new financial products based on their risk profile, for example the launch of "TISCO My Link", a flexible investment-linked policy allowing customers to manage their investments with the prospect of earning higher returns as well as choose their desired level of protection. TISCO Group and Thaipat Institute, as the fund manager and one of the six co-founder, actively promoted "Philanthropic Investment Fund" a new dimension of investment for two consecutive years. The fund selectively invested in the Stock Exchange of Thailand's ESG 100 listed companies with the propose to bring its return to sustain CSR projects contributing to the increasing business value for customers and shareholders in the long term.

# 10.2 Social

As the proficient and capable manpower is the key factor toward the sustainable development, human resource investment has been placed important by TISCO through corporate value communication and learning development program via Learning Management System (LMS) i.e. financial planning, investment, debts management, retirement planning, to increase fundamental business and financial knowledge of TISCO staffs equally both in headquarters and branches. As the goal to be happy organization, TISCO Group applied the standard questionnaire internationally accredited by Aon Hewitt (Thailand) and Sasin Graduate Institute of Chulalongkorn University to evaluate their employee happiness. In 2016, TISCO Group accomplished the consideration of hiring disabled people for 20 positions according to Article 35 instead of pay a contribution to the fund in accordance with Article 34. The employment will begin in 2017 through the Thai Red Cross nationwide in collaboration with the Thai Bankers' Association.

Above all, community development participation is also one of the company's missions to achieve along with business. Thus, we integrated the normal operation in the form of activities to 3 major areas: 1) Educational Development - providing annual scholarships to needy students nationwide through TISCO Foundation for Charity. The total scholarships granted in 2016 is 7,403 scholarships worth 30,485,500 Baht covering 1,069 schools throughout the country. These scholarships are ongoing supports with no obligation for the students to continue higher education and make a living after graduation. Moreover, the follow-up on progress by visiting grantees' homes has been made annually to evaluate the outcome of scholarships for their maximum benefit in the future. In 2016, TISCO Group visited 22 grantees' schools/houses totaling 525 scholarships both in Bangkok and its vicinities, Nan, Chiangrai Angthong and Rajburi. TISCO Group also provided funds for stationaries/ teaching tools as well as school building construction and renovation. In 2016, Ban Non Bon School in Ubon Ratchathani province has been supported fund for the new school building worth 5.03 million Baht. The project will be completed in the second quarter of 2017. 2) Financial Literacy-

promoting financial consciousness to sustain the sufficiency economy philosophy of His Majesty King Bhumibol Adulyadej through the program under "Smart Saving, Smart Spending" campaign. TISCO group also organized the financial camps under the theme "Saving before Spending, Creating Financial Discipline", enabling high school students nationwide to access modern financial course, i.e. money saving tips and techniques, interest rate calculation, and apply in their daily lives as well as pass on the knowledge to their friends, families, and communities including report sharing results for after-camp add-on project contest. During the camp, we also held teacher financial program to enhance the effectiveness of financial knowledge sharing. TISCO financial camp has been annually held since 2013 totaling 10 camps with 1,005 students and teachers from 303 schools in 74 provinces nationwide participated. The participants expanded their learning to 116,609 people in 143 communities. In addition, TISCO Group has cooperated with other networks to carry on financial literacy activities such as the Thai Banker Association and CSR club's financial course for 7 universities in Nakhon Pathom for 2 consecutive years. 3) Public Activities- driven by TISCO staffs with a sense of givers to help maintain sharing culture as good members of society such as the annual religious activities, blood donation campaign, that has continuously been doing for more than 32 years. In 2016, the total blood received was 3,366 units equaling1,376,200 cc., saving 10,000 people who were in need.

# **10.3 Environment**

TISCO Group recognizes the importance of environmental conservation and its relation to business operation as one of sustainability factor. The company encourages wise resources usage in operation practices along with instilling environmental consciousness among its employees with the goal to minimize environmental impacts from business operation and to promote stakeholders' cooperation in environmental conservation. For example, TISCO clients can take part in the policy through their business transaction by choosing no-slip ATM or use e-statement service. Besides, TISCO Group also adopted environmental conservation principle as one of the criteria in project loan approvals and doing business with vendors and business partners. Responding to digital age, TISCO Group has developed and improved working process to digital banking service for reducing duration of the transaction, traffic problems, and other resources usage. Last year, TISCO Tower joined the Thai Public Broadcasting Service (Thai PBS) in 30% water saving project by adopting new technology for the effective water management. Moreover, TISCO Tower received "Best Practice Award: Energy management and Sustainability" from Thailand Facility Management Association as the excellent building in effective energy saving both water and electricity management. In after process activity, TISCO Group continues its annual reforestation to raise environmental awareness among its employees. In 2016, the reforestation activity was held at Luk Phra Dabos project development area in Samut Prakan Province for the 6th consecutive year with 186 employees and executives planted 1,700 trees to restore the ecosystem of brackish water with an aim to develop the area into a learning center as well as to support the agro-tourism project creating jobs and income for people in the community in the future.

TISCO Group social activities as mentioned above were carried out by working groups and voluntary employees representing 50% of total employees.

# 14. Management Discussion and Analysis

# The Management Discussion and Analysis compares operating performance and financial position of TISCO Group for the year 2016, with those of the year 2015

### Movement of Money Market and Capital Market

In 2016, the domestic economy resumed recovery momentum following the government stimulus measures, the expansion in tourism sector and the improvement in private consumption. Export sector showed sign of recovery during the second half of 2016. However, Thai economy still remained volatile from both internal and external factors. Therefore, the domestic car sale in 2016 declined by 3.9% (YoY), totaled 768,788 units. Furthermore, the external economic factors have caused the uncertainty toward global economy, including the U.S. Federal Reserve raising interest rates, the stagnant growth in Eurozone and the economic slowdown in China. The headline inflation for the year 2016 was reported at 0.2%, following the increase in oil prices.

The Bank of Thailand (BOT) maintained the policy rate at 1.50%. The average 3-month fixed deposit rates of Top-4 commercial banks decreased from 1.01% to 0.93% (YoY), while the average minimum lending rate of Top-4 commercial banks decreased from 6.51% to 6.26% (YoY).

The capital market in 2016 improved significantly from the previous year with SET index closed at 1,542.94 points, increased by 254.92 points or 19.8% from the end of 2015. The growth was resulted from the increasing foreign capital inflow, and also the market trading volume has increased from the volatile domestic and global market conditions. Therefore, the average daily turnover increased from 41,141.45 million baht in 2015 to 50,244.97 million baht.

### **Major Events**

On December 22, 2016, TISCO Bank Public Company Limited and All-Ways Company Limited, the subsidiaries which the Company holds 99.99% and 100% of shares respectively, have an agreement to transfer retail banking business from Standard Chartered Bank (Thai) Public Company Limited. TISCO Bank Public Company Limited will be the transferee of personal loans, mortgage loans, business loans, wealth management and retail deposits businesses while All-Ways Company Limited will be the transferee of credit card business. This transfer aimed to strengthen retail banking business and increase business opportunity to expand customer base from the increasing product offering, as well as the increase benefit value from the transfer. The transfer is expected to be completed within the year 2017 after the approval from the Bank of Thailand and shareholders of the transferor and transferee.

# 14.1 Operating Performance for the year 2016

TISCO Financial Group Public Company Limited ("the Company") had net profit from operations on a standalone basis totaling 3,118.93 million baht, mainly contributed by service fee income from subsidiary companies within the group. As a holding company, TISCO Financial Group Public Company Limited operates as shareholder in other company and no other major business. Therefore, the analysis was based on the Company's consolidated operating performance and financial position which comprised of 2 main businesses: commercial banking business and securities business.

In 2016, the net profit attributed to owners of the Company totaled 5,005.89 million baht, increased by 755.77 million baht (17.8% YoY), which mainly contributed by improved net interest income and non-interest income from core business , as well as the lower provision expense comparing to the previous year. Net interest income increased by 7.8% (YoY) from the ability to maintain overall loan yield and the effective cost management. Non-interest income from core business improved by 1.6% (YoY), mainly resulting from the increase in brokerage fee income by 2.8% (YoY) following increasing market trading volume. Banking fee increased by 0.9% (YoY) owing to the improvement in bancassurance business. Moreover, the Company recorded investment banking fee from underwriting service during the past year. Meanwhile, asset management fee remained stable comparing to the previous year. Moreover, provision expense declined by 24.7% (YoY) from the improved asset quality. All in all, the provision remained at a cautious level, partly from the setup of general provision against business volatility amid the economic uncertainty.

Non-performing loans (NPLs) continually declined following improved asset quality in both hire purchase business and corporate lending business, thanks to effective credit control. In addition, the Company reclassified Sahaviriya Steel Industries Pcl. (SSI) from non-performing loan to special mention loan after the Central Bankruptcy Court approved the debt rehabilitation plan. As a result, the NPL ratio at the end of 2016 decreased from 3.23% to 2.54% (YoY) while the loan loss provision coverage ratio increased to 139.8%.

Basic earnings per share for the year 2016 was at 6.25 baht per share, increased from 5.31 baht per share in 2015. Meanwhile, the return on average equity (ROAE) was at 16.8%, increased from 15.7% (YoY).

### (2) Net Interest Income

Net interest income in 2016 was 10,920.43 million baht, increased by 790.58 million baht (7.8% YoY). Total interest income was 16,011.54 million baht, decreased by 876.01 million baht (5.2% YoY) while interest expense declined by 1,666.59 million baht (24.7% YoY) to 5,091.11 million baht, owing to a further decline in cost of fund and the Company's effective cost management.

Yield on loan improved from 6.5% to 6.6% (YoY) following the shift in loan portfolio mix from hire purchase loan to consumer loans that offer higher yield. While, cost of fund decreased from 2.6% to 2.2% (YoY) driven by a continual decline in funding cost. Consequently, loan spread increased from 3.9% to 4.5% (YoY). In addition, the net interest margin also rose from 3.4% to 4.0% (YoY).

The Company reported net interest income after impairment loss of loans and debt securities totaled 6,948.07 million baht, increased by 2,095.63 million baht (43.2% YoY). Impairment losses on loans totaled 3,972.37 million baht, comparing with 5,277.42 million baht in 2015, mainly resulting from the effective credit control.

% 2015 2016						
Yield on Loans	6.5	6.6				
Cost of fund	2.6	2.2				
Loan spread	3.9	4.5				

### (3) Non-interest Income

Non-interest income of the Company's core businesses reported at 5,932.70 million baht, increased by 93.75 million baht (1.6% YoY), mainly due to the increase in brokerage fee income by 22.58 million baht (2.8% YoY) to 825.27 million baht following increasing market trading volume. Banking fee income was reported at 3,778.97 million baht, increased by 35.25 million baht (0.9% YoY) from the improvement in bancassurance business. Moreover, the Company recorded the investment banking fee amounting 70.76 million baht from underwriting and advisory services during the year. Nonetheless, asset management fee was at 1,141.36 million baht, remained stable comparing to the previous year.

# (4) Bad debt, doubtful accounts and impairment loss of debt securities

In 2016, The Company set up provision for the year at 3,972.37 million baht, accounted for 1.72% of average loan, and decreased comparing with 5,277.42 million baht (YoY), mainly due to the improved asset quality of the loan portfolio. Generally, the provision still remained at a caution level amidst the environment of high economic uncertainty. TISCO Bank's provision included the setup of excess loan loss reserve of 1,943 million baht from the previous year, to cushion against potential business volatility. Hence, if excluded the setup of excess reserve, the provision would report at 0.88% of average loan.

# (5) Operating Expenses

Non-interest expenses were 6,541.03 million baht, increased by 1,014.01 million baht (18.3% YoY), mainly from the increase in variable expenses associated with revenue growth. The Company still maintained effective operating cost control, resulting in low cost to income ratio at 39.0%.

# (6) Corporate Income Tax

In 2016, the corporate income tax was 1,220.41 million baht, equivalent to the effective tax rate of 19.5%, which remained at the same level as in 2015.

# 14.2 Financial Position

# (1) Assets

As of December 31, 2016, the Company's total assets were 271,272.40 million baht, decreased by 3.2% (YoY) mainly due to the decline in loan portfolio from 238,259.84 million baht to 224,934.00 million baht (5.6% YoY) and the decrease in investments from 8,332.42 million baht to 7,188.84 million baht (13.7% YoY).

# **Report of the Audit Committee**

### **Report of the Audit Committee**

Appointed by the Board of Directors on April 22, 2016, the Audit Committee of TISCO Financial Group Public Company Limited (TISCO) comprises the following three independent directors:

1.	Assoc. Prof. Dr. Angkarat Priebjrivat	Chairperson
2.	Ms. Patareeya Benjapholchai	Member
3.	Prof Dr.Teerana Bhongmakapat	Member

The Audit Committee has performed duties and responsibilities according to the Charter of Audit Committee and as delegated by the Board of Directors. The Audit Committee has carried out duties independently and without restrictions as to access to information. The Audit Committee supports the Company's good corporate governance in accountability, transparency, fairness, integrity, and check & balance, which will serve the best interests of not only shareholders but also employees and other stakeholders.

The Audit Committee convened 12 meetings in Year 2016 (11 meetings with full attendance and 1 meeting with two-thirds attendance). Major activities performed during the year were as follows:

- Financial Statements: Reviewed quarterly and annual financial statements on the appropriateness of the Company's accounting policies used in the preparation of the financial statements and the completeness of information disclosure before the dissemination. The Committee agreed with the external auditor that the Company's financial statements and the disclosure of relevant information were adequate and fairly presented in accordance with generally accepted accounting principles.
- Internal Control and Audit: Reviewed and assessed internal control system and internal audit works and considered all
  issues raised by the external auditor and internal audit department. Assessed the independence of internal audit department
  and approved annual audit plan, strategy, key performance indicators and the Charter of Internal Audit. The Committee
  opined that the Company's internal control system and internal audit function were adequate and effective.
- Regulatory Compliance: Reviewed and assessed annual compliance plan and reports, compliance activities and status of legal cases and litigations. Acknowledged the results of external examinations by the Bank of Thailand and those of other regulators governing TISCO group. and assessed the Company's corrective actions. The Committee opined that the Company properly followed all necessary rules and regulations as imposed by regulatory authorities.
- External Auditor: Reviewed and assessed the independence of the external auditor as well as the overall scope and the focus of the annual and interim audit. Selected and nominated the external auditor to the Board of Directors for further recommendation to the shareholders for approval. Considering the independence, professional proficiency, performance, and appropriateness of the audit fee, the Committee proposed the appointment of Ms. Somjai Khunapasut of EY Office Limited as the Auditor of the Company and its subsidiaries for the Year 2016.
- Transactions with Related Parties and Conflicts of Interests: Reviewed and assessed related party transactions or transactions that may lead to conflicts of interests and the pricing policy for the transactions to ensure conformity with laws and regulations. The Committee agreed with the external auditor that the transactions were either conducted in a normal course of business operation or justified for the best interests of the Company. In addition, related disclosures were in compliance with the corporate governance and related party transaction policy.
- Risk Management: Reviewed and assessed the management's presentation on the effectiveness of risk management system, capital adequacy, and operational risk management. Acknowledged reports on material operational loss events and assessed the causes of such events and the appropriateness of pre-emptive measures to prevent future recurrences. The Committee was satisfied with the Company's risk management system.
- Anti-Corruption Program: Acknowledged the results of Self-Evaluation Tool for Countering Bribery of the Company, which
  were reviewed by EY Office Limited. After the reviewed result of assessment was proposed to the Thailand's Private Sector
  Collective Action Coalition against Corruption (CAC), the Company has received the re-certification as a member of CAC since
  August 2016.
- Audit Committee Self-Assessment: Performed self-assessment by comparing the Committee's activities to the Charter of Audit Committee, relevant laws and regulations, and leading practices. The results revealed that the Committee have carried out duties and responsibilities adequately and effectively according to the Charter of Audit Committee, relevant laws and regulations, and as delegated by the Board of Directors.

**Evaluation of the Sufficiency of Internal Control System** 

Internal Control System Assessment Questionnaire

**TISCO Financial Group Public Company Limited** 

February 19, 2016

This questionnaire was completed by the TISCO Financial Group Plc.'s Board of Directors. It reflects the Board's opinion on the adequacy of the TISCO Financial Group Plc.'s internal control system.

### Internal Control Assessment Questionnaire

### **Background and Objectives**

Proper Internal Control system is vital to listed companies as it shall prevent, manage and mitigate risk and loss that could impact the companies and their stakeholders. Therefore, Board of Directors is accountable to oversee that the company have implemented proper internal control system that is sufficient to govern and direct the company to achieve its missions and goals while complying with laws and regulations. Besides, the internal control system should also prevent the company from fraud and physical damage and ensure correct accounting and financial reporting.

The Securities Exchange Commission (SEC), coordinated with the Price Waterhouse Cooper (Thailand), had developed this Internal Control Assessment Questionnaire as a tool for listed companies for their self-assessment.

The questionnaire adopted the internal control concept of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) which was revised on May 2013 and was adjusted to be applicable to Thai listed company. The questionnaire is constructed in 5 key areas including Control Environment, Risk Assessment, Control Activities, Information & Communication, and Monitoring Activities.

### Use of Questionnaire

The companies should apply this questionnaire as guidance for internal control assessment at least annually and may reassess in case of unexpected event which may impact its operations significantly. The assessment should be reviewed by the Audit Committee and the Board in order to lead to discussion about proper improvement of internal control system.

The assessment should be based on execution of the control. If the assessment reflects insufficient control in some areas, the company should provide with rationale and improvement method.

Statement of the Board of Directors' Responsibility for Financial Statements and Auditor's Report and Financial Statements

### Statement of the Board of Directors' Responsibility for Financial Statements

The Board of Directors of TISCO Financial Group Public Company Limited is responsible for the Company's financial statements, the consolidated financial statements of the Company and its subsidiaries, and all financial information presented in the annual report. The financial statements have been prepared in accordance with generally accepted accounting standards applicable in Thailand, which are based on appropriate accounting policies, consistently applied and practiced, prudent judgment and best accounting estimates. All material information has been sufficiently disclosed in the notes to financial statements. These financial statements also have been made in compliance with the stipulations of the Notification of the Bank of Thailand, the Office of the Securities and Exchange Commission and the Stock Exchange of Thailand. The financial statements have been audited and expressed with unqualified audit opinion by an independent auditor, which reflected fair and transparent financial position and operating performance that is useful information for shareholders and general investors.

The Board of Directors has established effective risk management and internal control systems to ensure that the reliability and completeness of financial information are in place, with the ability to protect the Company's assets, as well as identifying the weaknesses of operation in order to adequately prevent operational risk.

In this regard, the Board of Directors has appointed the Audit Committee, comprising independent directors, to oversee qualitative aspects of financial reporting and internal control systems. The opinion of the Audit Committee with regard to these matters appears in the Report of the Audit Committee in this annual report.

The Board of Directors views that the Company's internal control systems are satisfactory and provide reasonable assurance as to the reliability of both the Company's financial statements and the consolidated financial statements of the Company and its subsidiaries as of December 31, 2016.

*Pliu Mangkornkanok* (Mr. Pliu Mangkornkanok) Chairman of the Board Suthas Ruangmanamongkol (Mr. Suthas Ruangmanamongkol) Group Chief Executive TISCO Financial Group Public Company Limited and its subsidiary companies Report and consolidated financial statements 31 December 2016

# Independent Auditor's Report

To the Shareholders of TISCO Financial Group Public Company Limited

# Opinion

I have audited the accompanying consolidated financial statements of TISCO Financial Group Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2016, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of TISCO Financial Group Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TISCO Financial Group Public Company Limited and its subsidiaries and of TISCO Financial Group Public Company Limited as at 31 December 2016, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

# **Basis for Opinion**

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions under the Royal Patronage of His Majesty the King as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# **Key Audit Matters**

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are described below.

# Allowance for doubtful accounts for loans to customers

As discussed in Note 1.6.9 and 3.6 to the financial statements, as at 31 December 2016, the Group had loans to customers of Baht 224,934 million (accounting for 83% of total assets) and allowance for doubtful accounts of Baht 7,984 million, which is a material amount. The estimation of allowance for doubtful accounts was made based on the criteria established by the Bank of Thailand and adjusted to incorporate the additional amounts that are is expected not to be collectible and a reserve to account for cyclical business factors, which relies on various assumptions. Management is required to exercise considerable judgement in determining the assumptions to be used in estimating the losses expected to be incurred as a result of debtors being unable to repay principal and interest, and in determining the timing of such recognition. Therefore, I have focused on examining the adequacy of the allowance for doubtful accounts for the loans to customers.

I have performed audit procedures on the allowance for doubtful accounts as follows:

- 1. I gained an understanding of the estimation process and the Group's recording of allowance for doubtful accounts.
- 2. I assessed and tested the internal controls relevant to the recording of allowance for doubtful accounts, collection of debt and the calculation of allowance for doubtful accounts for loans to customers, including the loan classification process and collateral valuation, by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls.
- 3. I checked the accuracy of the data used in the calculation of allowance for doubtful accounts to its source.

- 4. I performed analytical procedures to compare the assumptions that the Group used to calculate allowance for doubtful accounts with historical data, and evaluated the methods that the Group elected to use in estimating allowance for doubtful accounts for each type of product.
- 5. I reviewed the accuracy of loan's information and tested the accuracy of loan classification as the end of reporting period.
- 6. I assessed the allowance calculated by the management as follows:
  - 6.1 In cases where the Group set loan loss provisions on a specific basis, I selected a random sample of customers to test the correctness of status of the loan, the loan classification and the existence of collateral, tested the calculation of the valuation of collateral and also tested whether the calculation of the allowance was in accordance with the Group's guidelines.
  - 6.2 In cases where the Group applied a collective approach to loan loss provisioning,I tested the calculation of the probability of default and loss given default and I also tested the allowance calculation.

# Interest income recognition

The Group's interest income recognition policy is as discussed in note 1.6.1 to the financial statements. The Group's major source of revenue is interest income from loans, which amounted to Baht 16,012 million in the year 2016, accounting for 72% of total revenues. I focused my audit on recognition of interest income because there are a large number of customers such as retail loans, corporate loans and commercial lending loans. There are various types of credit, and there are a variety of conditions in the agreements, with the conditions for interest income recognition differing for each type of agreement. In addition the Group's recognition of interest income is primarily dependent on information technology. I therefore focused my audit on whether interest income was recognised in the correct amounts.

Most of the Group's revenues are recognised on the basis of data processed by information technology because of the large number of customers and the variety of conditions regarding income recognition in the relevant loan agreements. I assessed and tested the design and the operation of both the IT system controls and internal controls related to loan origination, collection, recognition of interest income and the cessation of the accrual of interest income. I also selected samples of loan agreements to evaluate whether lending, cash receipt and income transactions were recorded in accordance with the conditions in the loan agreement and in compliance with the Group's interest income recognition policy. In addition, I performed analytical procedures on interest income data and, on a sampling basis, examined significant adjustments made through journal vouchers.

# **Other Information**

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

# Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the Group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Halso provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Miss Somjai Khunapasut.

# TISCO Financial Group Public Company Limited and its subsidiaries Notes to consolidated financial statements For the year ended 31 December 2016

# 1. Basis of preparation and presentation of financial statements and significant accounting policies

# 1.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Profession Act B.E. 2547 and the regulation of the Bank of Thailand ("BOT"), and their presentation has been made in compliance with the Bank of Thailand's Notification No. Sor Nor Sor. 21/2558 regarding "Preparation and Announcement of Financial Statements of Commercial Banks and Parent Companies of Financial Holding Groups", dated 4 December 2015.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

# **1.2** Basis of consolidation financial statements

- a) The consolidated financial statements of TISCO Group include the financial statements of TISCO Financial Group Public Company Limited ("the Company") and its subsidiary companies ("the subsidiaries") as mentioned in Note 3.1 to the financial statements.
- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, from the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared for the same reporting period and using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Company and its subsidiaries have been eliminated from the consolidated financial statements.

f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

# 1.3 Separate financial statements

The separate financial statements present investments in subsidiaries and joint ventures under the cost method.

# 1.4 New financial reporting standards

# a) Financial reporting standards that became effective in the current year

During the year, the Company and its subsidiaries have adopted the revised (revised 2015) and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company's and its subsidiaries' financial statements.

# b) Financial reporting standard that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which is effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the change directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards.

The management of the Company and its subsidiaries believes that the revised financial reporting standards and interpretations and new accounting treatment guidance will not have any significant impact on the financial statements when they are initially applied. However, one standard involves change to key principles, which are summarised below.

## TAS 27 (revised 2016) Separate Financial Statements

This revised standard stipulates an additional option to account for investments in subsidiaries, joint ventures and associates in separate financial statements under the equity method, as described in TAS 28 (revised 2016) Investments in Associates and Joint Ventures. However, the entity is to apply the same accounting treatment for each category of investment. If an entity elects to account for such investments using the equity method in the separate financial statements, it has to adjust the transaction retrospectively.

This standard will not have any significant impact on the Company's and its subsidiaries' financial statements because the management has decided to continue accounting for such investments under the cost method in the separate financial statements.

## 1.5 Change in accounting estimate used in recording allowance for doubtful accounts

During the first quarter of the year 2016, TISCO Bank changed an accounting estimate used in recording allowance for doubtful accounts for loan against auto license receivables, as follows:

TISCO Bank changed to setting aside allowance for doubtful accounts for loan against auto license receivables using a collective approach, based on historical loss and behavioral grading of the loan against auto license receivables, rather than rates of not less than 1% and not less than 2% of the debt balance net of collateral value excluding accrued interest receivables for loans classified as pass and special mention, respectively, and at 100% of the debt balance remaining after deducting the present value of expected future cash inflows from debt collection or from collateral disposal, with the discount interest rate and the year of collateral disposal being set with reference to BOT's Notifications, for non-performing loans that are classified as sub-standard, doubtful and doubtful of loss.

Such allowances are set aside in accordance with the BOT's Notifications issued on 10 June 2016.

The effect of this change in accounting estimate used in recording allowance for doubtful accounts was to decrease the outstanding balance of allowance for doubtful accounts for loans against auto license receivables as at 31 December 2016 by Baht 202 million. However, TISCO Bank did not reverse the decrease in allowance for doubtful accounts to revenue and instead retained the allowance as excess reserves.

## 1.6 Significant accounting policies

- 1.6.1 Income recognition
  - a) Interest and discounts on loans

Interest on loans is recognised as income on an accrual basis and is based on principal outstanding. Hire purchase, finance lease and loan against auto license income are recognised over the installment period, using the effective interest rate.

The subsidiaries have policies for corporate loans on which interest payments have been defaulted for more than one month, it is the policy of its subsidiaries to cease accruing income. For other loan accounts which are overdue for more than three months, the recognition of interest income is ceased, already recorded accrued interest is reversed from accounts and after that interest will be recognised as income on a cash basis.

Accrual of interest is ceased for margin loans on which interest is overdue for more than two months and interest is then recognised on a cash basis.

The accounts will be reinstated to an accrual basis when the overdue amounts are received.

Interest or discounts already included in the face value of notes receivable or loans are recorded as deferred income and taken up as income evenly throughout the term of the notes or loans.

b) Interest and dividends on investment in securities

Interest on investment in securities is recognised as income on an accrual basis. Dividends on investment in securities are recognised as income when the right to receive the dividends is established.

c) Brokerage fees

Brokerage fees on securities and derivatives trading are recognised as income on the transaction dates.

d) Gains (losses) on trading in securities and derivatives

Gains (losses) on trading in securities and derivatives are recognised as income/expenses on the transaction dates.

e) Fee and service income

Fee and service income are recognised as income on an accrual basis.

## 1.6.2 Expense recognition

## a) Interest expenses

Interest expenses are charged to expenses on an accrual basis. Interest included in the face value of the notes payable is recorded as deferred interest and amortised to expenses evenly throughout the term of the notes.

b) Commissions and direct expenses of the hire purchase business

The subsidiaries record the initial commissions and direct expenses arising in respect of hire purchase contracts using the effective interest rate method, and deduct them from deferred revenue over the installment period.

Deferred revenue is stated net of commissions and direct expenses incurred at the initiation of the hire purchase contract.

1.6.3 Securities purchased under resale agreements according to private repurchase transactions

The subsidiary company operating banking business has purchased securities under resale agreements according to private repurchase transactions, which stipulate definite dates, terms and prices. Amounts paid for the securities purchased under resale agreements are presented under the caption of "Interbank and money market items" in the statements of financial position and the securities purchased are used as collateral.

Under securities purchased under resale agreements according to private repurchase transactions, the subsidiary obtains securities under resale agreements as collateral securities on terms which permit it to repledge or resell the securities to others.

Differences between the acquisition price and the selling price are recognised on an accrual basis over the term of the transaction by the effective interest rate method, and are presented as interest income.

## 1.6.4 Investments

- a) Investments in trading securities are stated at fair value. Changes in the fair value of these securities are recorded in profit or loss.
- b) Investments in available-for-sale securities are stated at fair value. Changes in the fair value of these securities are recorded in comprehensive income, and will be recognised as part of profit or loss when the securities are sold.
- c) Investments in held-to-maturity debt securities are recorded at amortised cost less allowance for impairment loss (if any). The premium/discount on debt securities is amortised/accreted by the effective rate method with the amortised/accreted amount presented as an adjustment to the interest income.
- d) Investments in non-marketable equity securities, which are classified as other investments, are stated at cost net of allowance for impairment loss (if any).
- e) Investments in subsidiaries and joint venture are accounted for in the separate financial statements using the cost method net of allowance for impairment loss (if any). Investment in joint venture is accounted for in the consolidated financial statements using the equity method.
- f) The subsidiary company does not record investments which the subsidiary company holds not less than 20% of the equity in associated companies under the equity method in the consolidated financial statements, if the investment was transferred as a result of debt restructuring. The subsidiary company is obliged to dispose of these investments within the period stipulated in the Bank of Thailand's regulations.
- g) The fair value of marketable securities is based on the latest bid price of the last working day of the year as quoted on the Stock Exchange of Thailand. The fair value of government bonds, state enterprise securities and private debt securities is determined by using the formula quoted by the Bank of Thailand, which is based on the yield rates quoted by the Thai Bond Market Association or other financial institutions. The fair value of unit trusts is determined based on their net asset value.
- Losses on impairment (if any) of the investments in available-for-sale securities, held-to-maturity debt securities and other investments are recognised in profit or loss.
- i) The weighted average method is used for computation of the cost of investments.

- j) In the event the Company and its subsidiaries reclassify investments from one type to another, such investments will be readjusted to their fair value as at the reclassification date. The differences between the carrying amount of the investments and the fair value on the date of reclassification are recorded in profit or loss or recorded as other components of equity, depending on the type of investment that is reclassified.
- k) Purchases and sales of investments are recorded on settlement date.

# 1.6.5 Investments in receivable purchased or transferred in

Investments in receivable purchased or transferred in, which are classified as heldto-maturity securities, are valued at acquisition cost net of allowance for impairment (if any). Losses on impairment of investments are included in profit or loss.

If the receivable enters into a troubled debt restructuring process, the investment will be transferred to loans to customers and presented at fair value, net of allowance for doubtful debt. The fair value is based on the outstanding balance of the receivable as at the transfer date or the date of restructuring. Allowance for doubtful debt is based on the same Bank of Thailand's guideline as allowance for loans to customers.

Since 1 January 2013, investments in receivable purchased or transferred in are recorded as loans to customers in statement of financial position at the fair value of consideration given in exchange, plus direct costs. Subsequent to initial recognition, these investments in receivable are valued at balances on the same basis as loans to customers

# 1.6.6 Receivable from Clearing House/Payable to Clearing House

Receivable from Clearing House comprises the net balance receivable from Thailand Securities Depository (TSD) in respect of securities trades settled through the Clearing House of TSD, and the net balance receivable from Thailand Clearing House (TCH), including amounts pledged with TCH as security for derivatives trading.

Payable to Clearing House comprises the net balance payable to Thailand Securities Depository in relation to securities trading settlements made through the Clearing House of TSD, and the net derivatives balance payable to Thailand Clearing House.

#### 1.6.7 Loans to customers

Loans to customers are stated at the principal balances, excluding accrued interest receivables. Unrecognised deferred revenue/discounts on loans to customers are deducted from loans to customers.

Hire purchase and finance lease receivables are stated at outstanding balance, net of deferred revenue. Deferred revenue is stated net of commissions and direct expenses incurred at the initiation of hire purchase contracts and advances received from finance lease receivables.

#### 1.6.8 Securities and derivatives business receivables

Securities and derivatives business receivables comprise the net balance of securities business receivables and derivative business receivables, after deducting allowance for doubtful accounts. Securities business receivables comprise the net receivable balances of cash accounts, securities borrowing and lending receivables, and other receivables such as securities receivables that are subject to legal proceeding, undergoing restructuring or setting in installments.

#### 1.6.9 Allowance for doubtful accounts and loss on debt restructuring

a) The subsidiary company operating banking business provides allowance for doubtful accounts and loss on debt restructuring in accordance with the Notifications of the Bank of Thailand ("BOT") and adjusts these by the additional amount which is expected not to be collectible based on an evaluation of the current status of the debtors, taking into consideration the recovery risk and the value of collateral.

For all loans to customers classified as pass and special mention, except for hire purchase receivables and auto cash receivables that are classified as pass and special mention, the subsidiary company records provision at a rate of not less than 1% and not less than 2% of the debt balance net of collateral value excluding accrued interest receivables, respectively.

For non-performing loans to customers which are classified as sub-standard, doubtful and doubtful of loss, except for non-performing hire purchase receivables, the subsidiary company records allowance for doubtful accounts at a rate 100% of the debt balance remaining after deducting the present value of expected future cash inflows from debt collection or from collateral disposal, with the discount interest rate and the year of collateral disposal being set with reference to BOT's Notifications.

For hire purchase receivables and loan against auto license receivables that are classified as pass, special mention and non-performing loans, the subsidiary company uses a collective approach, based on historical loss and behavioral grading of the hire purchase receivables and loan against auto license receivables.

The subsidiary company has already set provision for all loans to customers in accordance with the BOT's Notifications issued on 10 June 2016.

- b) For the securities business of a subsidiary, an allowance for doubtful accounts is based on a review of debtors' ability to make repayment, taking into consideration of recovery risk and the value of the collateral. An allowance is set aside for doubtful debts that their collaterals are not fully covered and/or those which may not be fully recovered. Such debt classifications and provisions are made in accordance with the Notification of the Office of the Securities and Exchange Commission and consideration of other relevant factors.
- c) For the subsidiary companies operating hire purchase business, allowance for doubtful accounts is made using a collective approach, based on historical loss and behavioral grading of the hire purchase receivables.
- d) Subsidiary companies operating other lending business set aside allowance for doubtful accounts for loans to customers classified as pass and special mention at a rate of not less than 1% and not less than 2% of the debt balance net of collateral value excluding accrued interest receivables, respectively. For non-performing loans to customers which are classified as sub-standard, doubtful and doubtful of loss, the subsidiary companies record allowance for doubtful accounts at a rate 100% of the debt balance net of collateral value.
- e) Allowance for doubtful accounts for other receivables is provided for the estimated losses that may be incurred in the collection of receivables and based on the review of current status of receivables outstanding at the end of reporting period.
- f) Increase (decrease) in allowance for doubtful accounts is recorded as expense during the year. Amounts written off as bad debts are deducted from the allowance for doubtful accounts. Bad debt recovery amounts are credited to the allowance for doubtful accounts in the period of recovery.

### 1.6.10 Troubled debt restructuring

The subsidiary company operating banking business records troubled debt restructuring transactions in accordance with the Bank of Thailand's regulations and Thai Accounting Standard regarding "Accounting for Troubled Debts Restructuring". The subsidiary records the assets or equities transferred to the subsidiary for debt settlement at the fair values of the assets less estimated selling expenses (if any), providing that this does not exceed the legally claimable amount of outstanding debt.

In case where the debt restructuring involves modifications of terms of receivables, the fair value of receivables after restructuring represents the net present value of the expected future cash inflows, discounted using the cost of fund rates prevailing at the restructuring date. In case where the cost of fund rates are lower than the interest rates specified in the term of modifications, the subsidiary will use the interest rates specified in the term of modifications as the discount rates. The subsidiary records differences between the fair value of receivables, and the balance of net book value of receivables as of restructuring date as expenses in profit or loss. Losses arising from restructuring by waiver of part of principal or recorded accrued interest receivable, less recorded allowance, are recognised in profit or loss when incurred.

#### 1.6.11 Recognition and derecognition of customer deposits

Cash which customers have placed with a subsidiary company operating securities business in cash accounts for securities trading and derivative trading is recorded as an asset of the subsidiary company for the customers' position for internal control purposes. At the financial statement date, the subsidiary company writes the amounts which are unsecured off from both assets and liabilities and presents only those assets which belong to the subsidiary company.

#### 1.6.12 Borrowing and lending of securities

A subsidiary company operating securities business is engaged in securities borrowing and lending transactions through agreements made with borrowers and lenders of securities, which are the subsidiary company's customers.

A subsidiary company records its obligations to return borrowed securities which it has lent as "Securities borrowing payables" and securities lent to customers are recorded as "Securities borrowing receivables" in the statement of financial position. At the end of the year, the balances of securities borrowing payables and securities borrowing receivables are adjusted based on the latest offer price quoted on the Stock Exchange of Thailand on the last working day of the year. Gains or losses arising from such adjustments are included in part of profit or loss in the statement of comprehensive income. The subsidiary company records cash paid or received as collateral for securities borrowing and lending as "Guarantee deposit receivables" or "Guarantee deposit payables". Fees from borrowing and lending are recognised on an accrual basis over the term of the lending.

1.6.13 Properties foreclosed

Properties foreclosed represents assets transferred in respect of receivables on which the debtors have defaulted or restructured receivables. The values of the repossessed assets are stated at the lower of cost (fair value of assets at the transfer date, not exceeding the legally claimable amount of outstanding debt) or net realisable value. Net realisable value is determined at the market value or the appraisal value of repossessed assets less estimated selling expenses. The subsidiary company operating banking business is required to record the additional general reserve for declining in value of properties foreclosed in accordance with the notifications of the Bank of Thailand and the management's estimates.

The subsidiary companies will recognise loss on impairment in profit or loss. Gains or losses from disposal of properties foreclosed are recognised upon disposal.

#### 1.6.14 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Any gains or losses arising from changes in the value of investment properties are recognised in profit or loss when incurred.

On disposal of investment properties, the difference between the net disposal proceed and the carrying amount of the asset is recognised in profit or loss in the year when the asset is derecognised (if any).

#### 1.6.15 Premises and equipment/Depreciation

Land is stated at cost. Office condominiums and equipment are stated at cost or revalued amount less accumulated depreciation and allowance for loss on impairment of assets (if any).

Office condominiums are initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to their fair values. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Differences arising from the revaluation are dealt with in the financial statements as follows:

- When an asset's carrying amount is increased as a result of the revaluation of the Company's and its subsidiaries' assets, the increase is credited directly to other comprehensive income and the cumulative increase is recognised in equity under the heading of "Surplus on revaluation of assets". However, the revaluation increase is recognised as income to the extent that it reverses the revaluation decrease in respect of the same asset previously recognised as an expenses.
- When an asset's carrying amount is decreased as a result of the revaluation of the Company's and its subsidiaries' assets, the decrease is recognised in profit or loss. However, the revaluation decrease is charged to other comprehensive income to the extent that it does not exceed the amount already held in "Surplus on revaluation of assets" in respect of the same asset.

The surplus on revaluation of assets is amortised to retained earnings on a straightline basis over the remaining life of the related assets. The revaluation surplus which is transferred to retained earnings is the difference between the depreciation calculated on book value of the revalued assets and the depreciation calculated on original cost of the assets. The revaluation surplus can neither be offset against deficit nor used for dividend payment.

Depreciation of office condominiums and equipment is calculated by reference to their costs or fair values on the straight-line basis (except for the depreciation of computer and communications equipment, which is calculated using the sum-of-theyear-digits method over estimated useful lives of 3 years) over the following estimated useful lives:

Buildings and office condominiums	-	20	years
Office improvements	-	5, 20	years
Furniture, fixtures and equipment	-	3, 5	years
Motor vehicles	-	5, 6	years

The depreciation is dealt with in the financial statements as follows:

- Depreciation attributed to the original cost portion is included in determining income.
- Depreciation attributed to the surplus portion is included in determining income.

No depreciation is provided on land and assets under installation.

An item of premises and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

1.6.16 Intangible assets

The Company and its subsidiaries initially recognise intangible assets at cost. Following the initial recognition, the intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

The Company and its subsidiaries amortise intangible assets with finite lives on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible assets may be impaired. The Company and its subsidiaries reviewe the amortisation year and the amortisation method of such intangible assets at least at each financial year end. The amortisation expenses is charged to profit or loss.

Intangible assets with finite lives are software license fees that the Company and its subsidiaries amortised over the following estimated useful lives:

- according to the year of license The license agreements with specified number of years of usage agreement by the straight-line basis The license agreements with no specified -5 years by the straight-line basis
- number of years of usage
- No license agreements

3 years by the sum-of-the-year-digits method

# 1.6.17 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

## Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

## Deferred tax

Deferred tax assets/liabilities are recognised for temporary differences between the tax bases of assets and liabilities and their carrying amounts as at the end of reporting period. These will be realised in future years when the income is realised, or the expenses provided for are actually incurred and considered deductible for income tax purposes.

The Company and its subsidiaries recognise deferred tax assets for all deductible temporary differences to the extent that it is probable that the Company and its subsidiaries will generate future taxable profits that will be available against which such deductible deferred tax assets can be utilised. The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences.

The Company and its subsidiaries record deferred tax directly to equity if the tax relates to items that are recorded directly to equity.

At the end of each reporting period, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilised.

# 1.6.18 Impairment of assets

The Company and its subsidiaries assess at the end of each reporting period whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company and its subsidiaries estimate the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An impairment loss is recognised in profit or loss. However in cases where assets was previously revalued and the revaluation was taken to equity, a part of such impairment is recognised in equity up to the amount of the previous revaluation.

1.6.19 Derecognition of financial assets and financial liabilities

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or when the Company and its subsidiaries have transferred substantially all risks and rewards of ownership. If the Company and its subsidiaries neither transfer nor retain substantially all risks and rewards of ownership of such financial assets, and retain control of such financial assets, the Company and its subsidiaries continue to recognise the financial assets to the extent of its continuing involvement. Financial liabilities are derecognised when they are extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expired.

1.6.20 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items included in the consolidated financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling on the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the reference rates announced by the Bank of Thailand at the end of each reporting period.

Gains and losses on exchange are included in determining income.

#### 1.6.21 Employee benefits

#### Short-term employee benefits

The Company and its subsidiaries record salaries, wages, bonuses and contributions to the social security fund as expenses when incurred.

Part of bonus expenses of the Company and its subsidiaries are annual bonus, which is remuneration for employees' annual performance that is paid in cash, and determined with reference to the Company's share price. The Company and its subsidiaries record this expenses and accrued bonus when employees receive the right as service is deemed to have already been rendered by the employees. It is recorded based on the average daily share price from the grant date to the end of each reporting period and any increase or decrease in the expenses according to changes in the share price is recognised in order to reflect the fair value of accrued bonus liability at the end of each reporting period, until the bonuses are settled.

## Post-employment benefits and other long-term employee benefits

### Defined contribution plans

The Company and its subsidiaries and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company and its subsidiaries. The fund's assets are held in a separate trust fund and the Company's and its subsidiaries' contributions are recognised as expenses when incurred.

# Defined benefit plans and other long-term employee benefits

The Company and its subsidiaries have obligations in respect of the severance payments it must make to employees upon retirement under labor law and other employee benefit plan. The Company and its subsidiaries treat these severance payment obligations as a defined benefit plan. In addition, the Company and its subsidiaries provide other long-term employee benefit plan, namely long service awards.

The obligation under the defined benefit plan is determined by the Company and its subsidiaries based on actuarial techniques.

Actuarial gains or losses arising from post-employment benefits are recognised immediately in other comprehensive income.

Actuarial gains or losses arising from other long-term benefits are recognised immediately in profit or loss.

# 1.6.22 Provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resource embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

#### 1.6.23 Derivatives and hedge accounting

The recording of derivatives and hedge accounting is based on the principles for recording derivatives and hedge accounting under IAS 39 "Financial Instruments: Recognition and Measurement".

a) A subsidiary operating banking business records derivatives held for trading under fair value method. The subsidiary records gains (losses) from changes in fair value of derivatives in profit or loss. The fair value of derivatives is based on the market price, or a formula which is generally accepted in cases where there is no market price. b) A subsidiary operating securities business recognises gains (losses) from changes in the fair value of the future contracts held for trading in profit or loss, with fair value determined based on the daily settlement prices quoted by Thailand Futures Exchange Public Company Limited.

#### 1.6.24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation techniques that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities.
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly.
- Level 3 Use of unobservable inputs such as estimates of future cash flows.

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

#### 1.6.25 Financial instruments

# a) Financial risk management

The Company's and its subsidiaries' financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash, interbank and money market items (assets), derivatives assets, investments, securities and derivatives business receivable, receivable from clearing house, loans to customers and accrued interest receivable, deposits, interbank and money market items (liabilities), liability payable on demand, derivatives liabilities, debts issued and borrowings, securities and derivative business payables and payable to clearing house. The financial risks associated with these financial instruments and how they are managed is described in Note 3.38 to the financial statements.

# b) Fair value of financial instruments

In determining the fair value of financial instruments, the estimate fair value will be adjusted by reserve with respective risk. For financial instruments with duration of one year or less, the book value represents a reasonable estimate of fair value. For financial instruments with duration greater than one year, fair value was determined based on the quoted market prices, where available, or otherwise based on present values of contractual cash flows, discounted using the rate used for financial instruments with similar features.

The methods and assumptions used by the Company and its subsidiaries in estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturities or carry interest at rates approximating the market rate, including cash, interbank and money market items (assets), securities and derivatives business receivables, receivable from clearing house, deposits, interbank and money market items (liabilities), liabilities payable on demand, securities and derivative business payables and payable to clearing house, the carrying amounts in the statement of financial position approximate their fair value.
- For debts securities, their fair value is generally derived from quoted market prices or determined by using the yield curve as announced by the Thai Bond Market Association.

- For equity securities, their fair value is generally derived from quoted market prices, or based on discounted future cash flows and/or comparing with similar companies when no market price is available.
- Loans to customers and accrued interest receivables, except for hire purchase receivables and other retail loans, are presented at fair value which is the book value less allowance for doubtful accounts, since most loans to customers carry interest at floating rates. Hire purchase receivables and other retail loans are presented at fair value, which is the present value of future cash inflows, discounted by the current interest rate for new loans.
- The fair value of debts issued and borrowings is estimated by discounting expected future cash flow by the current market interest rates of the borrowings with similar terms and conditions.
- For derivatives, their fair value has been determined by using a discounted future cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as spot rates of foreign currencies, yield curves of the respective currencies and interest rate yield curves. The subsidiary had considered to counterparty credit risk when determining the fair value of derivatives.

# 1.6.26 Offsetting financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.6.27 Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

# Recognition and derecognition of assets and liabilities

In considering whether to recognise or to derecognise assets or liabilities, the management is required to make judgement on whether significant risk and rewards of those assets or liabilities have been transferred, based on their best knowledge of the current events and arrangements.

#### Allowance for doubtful accounts for loans to customers

Allowances for loan losses are intended to adjust the value of loans to customers for probable credit losses. The management uses judgement to establish reserves for estimated losses on outstanding loans when there is any doubt about the borrower's capacity to repay the principal and/or the interest. The allowances for loan losses are determined through a combination of specific reviews, consideration of the probability of defaults, statistical modeling and estimates, taking into account change in the value of collateral and current economic conditions, in compliance with the principles stipulated by the Bank of Thailand. However, the use of different estimates and assumptions could affect the amounts of allowances for loan losses and adjustments to the allowances may therefore be required in the future.

## Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercises judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk, liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosers of fair value hierarchy.

#### Impairment of investments

The Company and its subsidiaries treat available-for-sale securities and general investments as impaired when the management judges that there has been a significant or prolonged decline in the fair value below their cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires judgement of the management.

#### Investment properties

The Company and its subsidiaries present investment properties at the fair value estimated by an independent appraiser, and recognise changes in the fair value in profit or loss. The independent appraiser valued the investment properties using the income approach because there is no market price that could be used to apply a comparative approach. The key assumptions used in estimating the fair value are described in Note 3.10.

#### Premises and equipment/Depreciation

In determining depreciation of premises and equipment, the management is required to make estimates of the useful lives and residual values of premises and equipment and to review estimated useful lives and residual values when there are any changes.

The Company and its subsidiaries measure office condominiums at revalued amounts. Such amounts are determined by the independent appraiser using the income approach. The valuation involves certain assumptions and estimates as described in Note 3.11.

In addition, the management is required to review premises and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

#### Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

# Post-employment benefits under defined benefit plans and other long-term employee benefits

The obligation under the defined benefit plan and other long-term employee benefits plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate, staff turnover rate.

#### Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgement regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

#### Litigation

The Company and its subsidiaries have contingent liabilities as a result of litigation. The Company's management has used judgement to assess of the results of the litigation and believes that no loss will result. Therefore, no contingent liabilities are recorded as at the end of each reporting period.

#### Consolidation and deconsolidation of subsidiaries

In preparation of the consolidated financial statements, the management is required to make judgement whether the Company has control over the subsidiaries that are included in the consolidated financial statements or not.

#### 2. General information

#### 2.1 The Company's information

TISCO Financial Group Public Company Limited ("the Company") is a holding company and is the parent company of TISCO Group. Its registered address is 48/49 TISCO Tower, 21st Floor, North Sathorn Road, Silom, Bangrak, Bangkok.

#### 2.2 Share capital

The preference shares have the same rights and benefits as ordinary shares, with added rights and benefits that entitle the holders of preference shares to receive preferential dividend of 1 Baht per share every year that the Company pays dividend to the holders of the ordinary shares. Additionally, the preference shares are entitled to share any leftover dividend with the holders of the ordinary shares. In years that the Company may still choose not declare dividend payment to the ordinary shareholders, the Company may still choose to declare dividend payment at the above-mentioned rate to the preference shareholders. However, the preference shareholders are entitled to receive dividend only in those years in which the Company has declared dividend payment, and the shares are non-cumulative. From 30 June 2009 onwards, the rights and benefits of the preference shareholders have been equal to those of the ordinary shareholders.

#### 2.3 Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its net profit after deducting accumulated deficit brought forward (if any), until such reserve reaches 10 percent of its registered share capital. The statutory reserve is not available for dividend distribution. At present, the statutory reserve has fully been set aside.

#### 2.4 Directors' remuneration

Directors' remuneration represents the benefits paid to the Company's and its subsidiaries' directors in accordance with Section 90 of the Public Limited Companies Act, exclusive of salaries, and related benefits payable to directors who hold executive positions.

#### 2.5 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company. They also include associated companies and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

The Company has significant business transactions with related parties. These transactions have been concluded on commercial terms and bases agreed upon in the ordinary course of business between the Company and those related parties, which are reference to the terms and price as charged to other customers.

The investment property is an office condominium for rent and stated at fair value at the end of 2016. The fair value of investment properties was calculated by the asset appraisal method based on the market and income approach. The income approach was made by the present value calculation of discounted cash flows on expected cash inflows, expected cash outflows, occupancy rate, capitalisation rate, discount rate and other relevant factors. These asset appraisal approach also made reference to data of assets in the market that are similar and comparable to the appraisal assets, taking into account past operation results and forecast returns of the appraisal assets, market demand and supply and other factors that would affect to the asset value. These valuations were made by in-house appraises of TISCO Bank who have professional experiences and are capable of the asset appraisal, and were based on the assets appraisal standard and professional ethics in Thailand.

Key assumptions that are unobservable inputs used in the valuation are summarised below.

### 3.35 Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the Group Chief Executive, TISCO Group.

For management purposes, the Company and its subsidiaries operate four main businesses as follows:

- Commercial banking business: Provides financial services under the Commercial Banking Business license. Banking services are provided through the TISCO Bank Public Company Limited headquarters and its branches.
- Securities business: Provides securities business services under the Securities Business license. These businesses are serviced through the headquarters and branches of subsidiaries across the country.
- 3. Asset management business: Provides asset management services.
- 4. Support business: Provides all governance and support functions of the Group.

The Company and its subsidiaries have aggregated operating segments that have similar economic characteristics and are similar in the other respects required by the Thai Financial Reporting Standard.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements. However, the Company's and its subsidiaries' income taxes are managed on a group basis. Therefore, these expenses are not allocated to operating segments.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The Company and its subsidiaries operate in Thailand only. As a result, all the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

During the years 2016 and 2015, the Company and its subsidiaries did not have income from any customer amounting to or over 10 percent of their income.

The following tables present revenue, profit and total assets information regarding the Company's and its subsidiaries' operating segments for the years ended 31 December 2016 and 2015, respectively.

### 3.36 Provident fund

The Company, its nine subsidiaries and their employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. The Company, its subsidiaries and the employees contribute to the fund monthly at the rates of 5 to 15 percent of the employees' salaries, in accordance with the rules prescribed in the fund's articles. The provident funds of the Company and its eight subsidiaries are managed by TISCO Asset Management Company Limited, and the fund of another subsidiary is managed by Bangkok Bank Public Company Limited. The funds will be paid to the employees upon termination in accordance with the fund rules. During the years 2016 and 2015, the Company and its subsidiaries recognised the contributions as expenses totaling Baht 211 million and Baht 193 million, respectively. (the Company only: Baht 39 million and Baht 36 million, respectively).

#### 3.37.2 Litigation

As at 31 December 2016 and 2015, the subsidiaries have been sued for compensation totaling approximately Baht 312 million and Baht 368 million, respectively. Final judgements have not yet been reached in respect of these cases. The management of the Company and its subsidiaries believe that no material losses to the consolidated financial statements will be incurred as a result of the mentioned lawsuits.

#### 3.37.3 Other commitments

- a) The subsidiary companies have commitments in relation to computer service agreements, whereby it is to pay both fixed fees and service fees which vary according to the quantity and type of services, as stipulated in the agreements.
- b) The subsidiary companies have entered into several lease agreements in respect of the lease of office buildings and branch offices. The terms of the agreements are generally 1 - 10 years.

As at 31 December 2016 and 2015, the subsidiary companies have future minimum lease payments required under these non-cancellable operating leases contracts as follows:

#### 3.38 Financial instruments

3.38.1 Credit risk

Credit risk is risk that a counterparty or borrower will be unable to meet their financial commitments under an agreement, causing them to be unable to make settlement of indebtedness to the Company and its subsidiaries on the due date or to intentionally fail to make payments to the Company and its subsidiaries in accordance with the agreement.

TISCO Group is exposed to credit risk primarily with respect to loans to customers and guarantees of loans and others. TISCO Group has centralised its risk management function under the regulatory guidelines for consolidated supervision issued by the Bank of Thailand. The Company and its subsidiaries ("the Group") manage credit risk by adopting appropriate credit control policies and procedures in the credit approval process, and by analysis of risk factors and the ability of customers to service debt. For hire purchase receivables, the Group has implemented a credit scoring system, in order to enhance efficiency in the credit approval process and better reflect the credit risk. It also adopted a credit review process that examines and reviews the quality of loans so as to prevent and provide a remedy for problem loans in the future. The Group therefore does not expect to incur material financial losses from loans and guarantees of loans. In addition, the Group is not exposed to concentrations of credit risk because it has a varied customer base and a large number of customers. The maximum exposure to credit risk is limited to the carrying amount of loans to customers as stated in the financial statements.

Quality of risk from provision of hire purchase receivables by a subsidiary company operating banking business, which comprises the largest portion of credit granted by the Group, is as detailed below.

The risk of hire purchase credit that is not overdue of the subsidiary operating banking business can be classified into three groups, based on quality of risk in respect of expected losses within one year. These are "Very High Grade", "High Grade" and "Medium Grade", with "Very High Grade" credit defined as credit from which expected losses over the next year are less than or equal to 0.2% of the balance; "High Grade" as credit from which losses within one year are expected to be between 0.2% and 2.0% and "Medium Grade" as credit from which losses within one year are expected to exceed 2% of the balance.

Credit risk of hire purchase receivables classified by quality of credit is as follows:

	(Unit: Million Baht)			
	As at 31 December			
	2016 2015			
Neither past due nor impaired				
Very high grade	42,556	45,348		
High grade	76,086	90,926		
Medium grade	13,156	10,626		
Subtotal	131,798	146,900		
Hire purchase receivables - overdue for 31 to 90 days	13,434	14,458		
Hire purchase receivables - overdue for more than 90 days	4,319	5,330		
Total	149,551	166,688		

#### 3.38.2 Market risk

Market risk is defined as the degree of vulnerability to movements in securities market prices and interest rates, which may affect income or the capital funds of the Group. In order to effectively manage market risk, a suitable risk treatment framework is to be implemented. TISCO Group uses a combination of risk sensitivities, Value at Risk and stress testing to manage market risks and establish limits. The Value at Risk (VaR) concept has employed methodologies and internal techniques appropriate to the nature of risks involved. On-going Back-testing is also performed to validate the internal Value at Risk model, and stress testing is performed under various extreme scenarios as a supplement to VaR. The risk assessment and corresponding risk treatment takes into account the transaction intent as well as the market liquidity of the securities.

#### 3.38.2.1 Market risk - Marketable portfolio

The following table shows the VaR calculation for marketable portfolio position as at the financial statements date. The VaR that the Group measures is an estimate, using a confidence level of 99%, of TISCO potential loss that is not expected to be exceeded if the current marketable portfolio position were to be held unchanged for one year.

#### 3.38.2.2 Market risk sensitivity - Interest bearing assets and liabilities

The market risk sensitivity of interest bearing assets and liabilities is measured by assessing the effect of changes in interest rates on the net interest income over the period of one year, based on the fixed interest bearing asset and liability positions held by the Group at the financial statements date. In making such assessment, changes in interest rates are applied prospectively and normal increases in assets and liabilities are not taken into account as presented below.

		(Unit: Million Baht)
	Increase (decrease	e) in sensitivity of
	net interest income a	as at 31 December
	2016	2015
Change in interest rate		
Increase by 1 percent	56.98	(251.25)
Decrease by 1 percent	(56.98)	251.25

However, to better reflect a realistic business environment, the sensitivity to interest rate risk is adjusted taking into account that business growth and interest rate shift are actually gradual. The net interest rate sensitivity incurred would be less than the effect on net interest income as illustrated in the analysis. This market risk sensitivity of interest bearing assets and liabilities does not include the status of marketable debt securities, which is presented in the market risk - marketable portfolio.

#### 3.38.3 Liquidity risk

Liquidity risk is uncertainty that the subsidiary operating banking business is unable to meet repayment obligations when they fall due. This could arise from a failure in asset conversion or to raise adequate fund for timely fulfillment of obligations. Liquidity risk may result from both internal and external factors. Internal factors hinge on liquidity reserve and a structure of assets and liabilities. Meanwhile, external factors are mainly driven by market liquidity and confidence of depositors.

#### Liquidity risk management framework

The overall liquidity risk management is overseen by the Risk Management Committee. Treasury function will be responsible for ensuring that daily liquidity position complies with the risk management policy of the subsidiary operating banking business and regulatory requirement. On the other hand, Risk Management function will monitor and control liquidity risk based on the prescribed risk limits.

The key liquidity risk management policies involve the management of cash flow maturity profiles, deposit concentrations, liquidity reserve assets and emergency contingency plan. Liquidity risk strategies will take into account market liquidity and how unexpected changes would affect the subsidiary operating banking business's risks. A manageable level of maturity mismatches of cash flows from assets and liabilities will then be consistently maintained and regularly monitored, together with the level of liquidity reserve assets. The procurement and concentration of funding sources will be well-planned to optimise risk and return. Contingency procedures for liquidity management in the times of unexpected financial crisis must be established and made ready for timely activation. In addition to the liquidity risk measurement, those subsidiary sets the limit of loan to total borrowing ratio and liquidity reserve asset level. The position of liquidity risk is monitored daily and reported to the Risk Management Committee and other relevant functions.

Additionally, the subsidiary operating banking business has set stress testing scenarios for liquidity risk where the scenarios cover the subsidiary's specific scenarios and industry-based scenarios, which cause unusual cash outflow from the subsidiary operating banking business.

The main sources of fund came from deposits. In the past, there was high rollover rate for matured deposits. Besides, the subsidiary operating banking business also issued subordinated and unsubordinated debentures as another source of fund. On the use of fund, the majority of fund is used in lending business while a proportion of fund is maintained as liquidity reserve assets as cushion against liquidity risk. Moreover, the subsidiary provides credit line to other companies under TISCO Group to support liquidity position if required.

	Less than		More than					
	3 months	3 - 12 months	1 year	Total				
Liabilities	172,690	45,738	25,557	243,985				

The matured liabilities are generally rolled-over with 90 percent average rollover rate. By taking into account high rollover rate, the cash outflow at maturity will be lower than those presented by contractual maturity. On the other hand, the liabilities with remaining maturity less than three months comprised current deposit and saving deposit. Both current deposit and saving deposit are considered to be more stable than term deposit in terms of cash outflow.

#### 3.38.3.2 Volume and composition of highly liquid assets and internal ratio

<sup>(1)</sup> Highly liquid assets and liquid asset requirement are based on internal measurement.

The subsidiary operating banking business has a policy in maintaining the highly liquid assets higher than internal liquid asset requirement. As at 31 December 2016 and 2015, the subsidiary operating banking business has highly liquid assets, which are daily calculated, at Baht 43,337 million and Baht 37,512 million, respectively, higher than internal liquid asset requirement, which is daily considered, of Baht 9,507 million and Baht 9,974 million, respectively. In addition, the subsidiary operating banking business has operating cash inflow from business, and available credit line from other financial institutions which is available to support uncertain liquidity requirement.

### Sensitivity to changes in unobservable inputs for non-financial assets

The Company and its subsidiaries have hired an appraiser licensed by the Securities and Exchange Commission, who used the Income Approach to calculate the fair value of investment properties and office condominiums. Under this approach the free cash flows that the Company and its subsidiaries expect to receive annually are discounted using rates that take into account borrowing rates and various risk factors.

The significant unobservable inputs used in the fair value measurement of investment properties and office condominiums are the growth rate of rental income and discount rate. The growth rate of rental income and discount rate used as inputs are 5% and 9%, respectively. Significant decreases in growth rates of rental income or increases in discount rates, in isolation, would result in a significantly lower fair value measurement of investment properties and office condominiums.

During the current year, there were no transfer within the fair value hierarchy.
